

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

FORM 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended June 30, 2020

Or

Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from to

Commission file number 001-33404

**WESTWATER RESOURCES, INC.**

(Exact Name of Registrant as Specified in Its Charter)

DELAWARE

(State of Incorporation)

75-2212772

(I.R.S. Employer Identification No.)

6950 S. Potomac Street, Suite 300, Centennial, Colorado 80112

(Address of Principal Executive Offices, Including Zip Code)

(303) 531-0516

(Registrant's Telephone Number, Including Area Code)

Securities registered pursuant to Section 12(b) of the Act:

| <u>Title of Each Class</u>      | <u>Trading Symbol(s)</u> | <u>Name of Each Exchange on Which Registered</u> |
|---------------------------------|--------------------------|--|
| Common Stock, \$0.001 par value | WWR                      | Nasdaq Capital Market                            |

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Title of Each Class of Common Stock

Common Stock, \$0.001 par value

Number of Shares Outstanding

7,564,815 as of August 5, 2020

The accompanying notes are an integral part of these condensed consolidated financial statements.

**WESTWATER RESOURCES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**1. BASIS OF PRESENTATION**

The accompanying unaudited condensed consolidated financial statements for Westwater Resources, Inc. (the “Company,” “we,” “us,” “WWR” or “Westwater”), have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The accompanying statements should be read in conjunction with the audited financial statements included in Westwater Resources, Inc.’s 2019 Annual Report on Form 10-K. In the opinion of management, all adjustments (which are of a normal, recurring nature) considered necessary for a fair presentation have been included. Operating results for the six months ended June 30, 2020 are not necessarily indicative of the results that may be expected for any other period including the full year ending December 31, 2020.

***Significant Accounting Policies***

Our significant accounting policies are detailed in Note 1, *Summary of Significant Accounting Policies*, in the Notes to Consolidated Financial Statements within our Annual Report on Form 10-K for the year ended December 31, 2019.

***Recently Adopted Accounting Pronouncements***

In August 2018, the FASB issued ASU 2018-13, “Fair Value Measurement (ASC 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement”. This update modifies the disclosure requirements for fair value measurements by removing, modifying or adding disclosures. The Company adopted this pronouncement effective January 1, 2020. The adoption of ASU 2018-13 has not had a material impact on the Company’s consolidated financial statements.

***Recently Issued Accounting Pronouncements***

In December 2019, the FASB issued ASU 2019-12, “Income Taxes - Simplifying the Accounting for Income Taxes (Topic 740)” which is intended to simplify various aspects related to accounting for income taxes. ASU 2019-12 removes certain exceptions to the general principles in Topic 740 and also clarifies and amends existing guidance to improve consistent application. ASU 2019-12 will be effective for interim and annual periods beginning after December 15, 2020.

In June 2016, the FASB issued ASU 2016-13, “Measurement of Credit Losses on Financial Instruments”. ASU 2016-13 will change how companies account for credit losses for most financial assets and certain other instruments. For trade receivables, loans and held-to-maturity debt securities, companies will be required to estimate lifetime expected credit losses and recognize an allowance against the related instruments. For available for sale debt securities, companies will be required to recognize an allowance for credit losses rather than reducing the carrying value of the asset. The adoption of this update, if applicable, will result in earlier recognition of losses and impairments. ASU 2016-13 will be effective for interim and annual periods beginning after January 1, 2023.

In November 2018, the FASB issued ASU 2018-19, “Codification Improvements to ASC 326, Financial Instruments – Credit Losses.” ASU 2016-13 introduced an expected credit loss methodology for the impairment of financial assets measured at amortized cost basis. That methodology replaces the probable, incurred loss model for those assets. ASU 2018-19 is the final version of Proposed Accounting Standards Update 2018-270, which has been deleted. Additionally, the amendments clarify that receivables arising from operating leases are not within the scope of Subtopic 326-20. Instead, impairment of receivables arising from operating leases should be accounted for in accordance with ASC 842, Leases. ASU 2018-19 will be effective for interim and annual periods beginning after January 1, 2023.

**WESTWATER RESOURCES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

The Company is currently evaluating ASU 2016-13, ASU 2018-19 and ASU 2019-12 for the potential impact of adopting this guidance on its financial reporting.

***Cash, Cash Equivalents and Restricted Cash***

The following table provides a reconciliation of cash, cash equivalents and restricted cash as reported within the consolidated balance sheet that sum to the total of the same such amounts shown in the statement of cash flows.

| <u>(thousands of dollars)</u>   | As of June 30,  |                 |
|---|-----------------|-----------------|
|   | 2020            | 2019            |
| Cash and cash equivalents   | \$ 2,330        | \$ 1,156        |
| Restricted cash - pledged deposits for performance bonds                        | 3,807           | 3,768           |
| Cash, cash equivalents and restricted cash shown in the statement of cash flows | <u>\$ 6,137</u> | <u>\$ 4,924</u> |

Funds deposited by the Company for collateralization of performance obligations are not available for the payment of general corporate obligations and are not included in cash equivalents. Restricted cash consists of money market accounts. The bonds are collateralized performance bonds required for future restoration and reclamation obligations primarily related to the Company's South Texas production properties.

**2. LIQUIDITY AND GOING CONCERN**

The interim Condensed Consolidated Financial Statements of the Company have been prepared on a "going concern" basis, which means that the continuation of the Company is presumed even though events and conditions exist that, when considered in the aggregate, raise substantial doubt about the Company's ability to continue as a going concern because it is possible that the Company will be required to adversely change its current business plan or may be unable to meet its obligations as they become due within one year after the date that these financial statements were issued.

The Company last recorded revenues from operations in 2009 and expects to continue to incur losses as a result of costs and expenses related to maintaining its properties and general and administrative expenses. Since 2009, the Company has relied on equity financings, debt financings and asset sales to fund its operations and the Company expects to rely on these forms of financing to fund its operations into the near future. The Company will also continue to identify ways to reduce its cash expenditures.

The Company's current business plan requires working capital to fund non-discretionary expenditures for uranium reclamation activities, mineral property holding costs, early stage graphite battery-material product development costs and administrative costs. The Company is pursuing project financing to support execution of the graphite business plan, including discretionary capital expenditures associated with ongoing graphite battery-material product development costs, construction of pilot plant facilities and construction of commercial production facilities. The Company's current lithium business plan will be funded by working capital; however, the Company is pursuing project financing including possible joint venture partners to fund discretionary greenfield exploration activities.

At June 30, 2020 the Company's cash balances were \$2.3 million and the Company had a working capital deficit balance of \$1.0 million. The Company's cash balance at July 31, 2020 is \$2.9 million. Subsequent to July 31, 2020, the Company expects to fund operations as follows:

- The Purchase Agreement with Lincoln Park Capital, LLC ("Lincoln Park") dated as of May 21, 2020 and as amended on May 29, 2020 (the "2020 Purchase Agreement"), the issuance of shares pursuant to which was approved by the Company's shareholders at the annual shareholders meeting on April 28, 2020. Pursuant to the 2020 Purchase Agreement, the Company may place up to \$12.0 million in the aggregate of the Company's

**WESTWATER RESOURCES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

common stock on an ongoing basis when required by the Company over a term of 24-months ending in May 2022. As of July 31, 2020, the Company has 722,279 registered shares for resale by Lincoln Park on a current Form S-1 and \$9.7 million remaining sales capacity under the 2020 Purchase Agreement, subject to periodic registration of shares on Form S-1.

- The Controlled Equity Offering Sales Agreement (the “ATM Offering Agreement”) with Cantor Fitzgerald & Co. (“Cantor”) which currently has \$19.5 million remaining sales capacity, subject to periodic registration of shares on Form S-3. The Company is currently eligible to, and intends to, register the sale of additional shares under the agreement on Form S-3 pursuant to the SEC’s shelf registration rules.
- Other possible debt and equity financings and asset sales.

While the Company has been successful in the past in raising funds through equity and debt financings as well as through the sale of non-core assets, no assurance can be given that additional financing will be available to it in amounts sufficient to meet its needs, or on terms acceptable to the Company. Stock price volatility and uncertain economic conditions caused by the recent Covid-19 pandemic could significantly impact the Company’s ability to raise funds through equity financing. In the event that we are unable to raise sufficient additional funds, we may be required to delay, reduce or severely curtail our operations or otherwise impede our on-going business efforts, which could have a material adverse effect on our business, operating results, financial condition, long-term prospects and ability to continue as a viable business. Considering all of the factors above, the Company believes there is substantial doubt regarding its ability to continue as a going concern.

### **3. NOTES RECEIVABLE**

#### ***Laramide Note Receivable***

As part of the consideration for the sale of Hydro Resources, Inc. (HRI) in January 2017, the Company received a promissory note in the amount of \$5.0 million, secured by a mortgage over the Churchrock and Crownpoint properties owned by Laramide Resources Ltd. (“Laramide”). The note had a three-year term and carried an initial interest rate of 5%. The Company received the first two installment payments of \$1.5 million each in January 2018 and January 2019. The final principal payment of \$2.0 million was due and payable on January 5, 2020. Interest was payable on a quarterly basis during the final year. Laramide had the right to satisfy up to half of the principal payments by delivering shares of its common stock to the Company, which shares were valued by reference to the volume weighted average price (“VWAP”) for Laramide’s common stock for the 20 trading days before their respective anniversaries of the initial issuance date in January. The fair value of this note receivable was determined using the present value of the future cash receipts discounted at a market rate of 9.5%.

On August 30, 2019, the Company sold the promissory note (Note 4). Prior to August 30, 2019, the Company had received three tranches of Laramide common shares as partial consideration for the sale, which had resulted in the receipt of 2,218,133, 1,982,483 and 2,483,034 Laramide common shares in January 2017, January 2018 and January 2019, respectively. These share payments represented the initial consideration from the January 2017 sale of HRI and two note installments in January 2018 and January 2019. The first note installment in the amount of \$1.5 million in January 2018, consisted of \$750,000 in cash and the issuance of 1,982,483 of Laramide’s common shares. The second note installment in the amount of \$1.5 million in January 2019, consisted of \$750,000 in cash and the issuance of 2,483,034 of Laramide’s common shares. Additionally, Laramide made interest payments in the amount of \$96,022 in cash during the year ending December 31, 2019.

On March 25, 2019, the Company sold the third tranche of 2,483,034 Laramide common shares and 2,218,133 Laramide warrants resulting in net proceeds of \$0.5 million and a net loss on sale of marketable securities of \$0.7 million.

**WESTWATER RESOURCES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**4. SALE OF URANIUM ASSETS**

On March 5, 2019, the Company entered into an Asset Purchase Agreement with Uranium Royalty (USA) Corp. and Uranium Royalty Corp. (together “URC”) for the sale of four of its royalty interests on future uranium production from mineral properties located in South Dakota, Wyoming and New Mexico, as well as the remaining amount of the Laramide promissory note in the amount of \$2.0 million as discussed in Note 3 above, for \$2.75 million, including \$0.5 million paid at signing. On June 28, 2019, Westwater and URC entered into an Amendment to the Asset Purchase Agreement. The Amendment extended the date for closing from July 31, 2019 to August 30, 2019. URC delivered an additional \$1.0 million as deposit to the Company upon signing the Amendment. The transaction closed on August 30, 2019 at which time the Company transferred ownership of the royalties and promissory note in exchange for the final payment of \$1.25 million.

The sale of these uranium assets was accounted for as an asset disposal. The Company recorded the following gain on disposal of uranium assets on its Consolidated Statements of Operations for the year ended December 31, 2019:

| <b>URC Transaction</b>                                      |               |
|---|---------------|
| <i>(thousands of dollars)</i>                               |               |
| Total cash consideration received, net of transaction costs | \$ 2,470      |
| Carrying value of promissory note                           | (1,741)       |
| Carrying value of royalty interests                         | —             |
| Gain on disposal of uranium assets                          | <u>\$ 729</u> |

**5. FINANCIAL INSTRUMENTS**

Applicable accounting standards define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and establishes a fair-value hierarchy that prioritizes the inputs used to measure fair value using the following definitions (from highest to lowest priority):

- Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that are observable at the measurement date.
- Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).
- Level 3 includes unobservable inputs that reflect management’s assumptions about what factors market participants would use in pricing the asset or liability. These inputs are developed based on the best information available, including internal data.

**WESTWATER RESOURCES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
(unaudited)

The Company believes that the fair value of its assets and liabilities approximate their reported carrying amounts. The following table presents information about assets that were recorded at fair value on a recurring and non-recurring basis as of June 30, 2020 and December 31, 2019 and indicate the fair value hierarchy.

| (thousands of dollars)                          | June 30, 2020   |             |             | Total           |

The Company reviews and evaluates its long-lived assets for impairment on an annual basis or more frequently when events or changes in circumstances indicate that the related carrying amounts may not be recoverable. For the six months ended June 30, 2020 no events or changes in circumstance, including any affects from the COVID-19 pandemic, are believed to have impacted recoverability of the Company's long-lived assets. Accordingly, it was determined that no interim impairment was necessary.

**(unaudited)**

## **9. COMMON STOCK**

### *Common Stock Issued, Net of Issuance Costs*

#### *2020 Purchase Agreement with Lincoln Park*

On May 21, 2020, the Company entered into the 2020 Purchase Agreement, as amended on May 29, 2020, with Lincoln Park to place up to \$12.0 million in the aggregate of the Company's common stock on an ongoing basis when required by the Company over a term of 24 months. Westwater will control the timing and amount of any sales to Lincoln Park, and Lincoln Park is obligated to make purchases in accordance with the 2020 Purchase Agreement. Any common stock that is sold to Lincoln Park will occur at a purchase price that is based on an agreed upon fixed discount to the Company's prevailing market prices at the time of each sale and with no upper limits to the price Lincoln Park may pay to purchase common stock. The 2020 Purchase Agreement may be terminated by Westwater at any time, in its sole discretion, without any additional cost or penalty.

The 2020 Purchase Agreement specifically provides that the Company may not issue or sell any shares of its common stock under the 2020 Purchase Agreement if such issuance or sale would breach any applicable rules of The Nasdaq Capital Market. In particular, Nasdaq Listing Rule 5635(d) provides that the Company may not issue or sell more than 19.99% of the shares of the Company's common stock outstanding immediately prior to the execution of the 2020 Purchase Agreement without shareholder approval. The Company received such shareholder approval to sell up to 8.0 million shares of common stock under the 2020 Purchase Agreement at its Annual Shareholders Meeting conducted on April 28, 2020.

Lincoln Park has no right to require the Company to sell any shares of common stock to Lincoln Park, but Lincoln Park is obligated to make purchases as the Company directs, subject to certain conditions. In all instances, the Company may not sell shares of its common stock to Lincoln Park under the 2020 Purchase Agreement if it would result in Lincoln Park beneficially owning more than 9.99% of its common stock. As an initial purchase on May 21, 2020, Lincoln Park bought \$250,000 worth of Common Stock of the Company at a price of \$1.2989 per share. The Company issued 156,250 shares of Common Stock to Lincoln Park as consideration for its commitment to purchase shares of Common Stock under the 2020 Purchase Agreement.

Also on May 21, 2020, the Company entered into a registration rights agreement with Lincoln Park pursuant to which the Company filed a registration statement on Form S-1 with the Securities and Exchange Commission, which was declared effective on June 26, 2020 relating to the resale of an initial tranche of 1,971,000 shares subject to the 2020 Purchase Agreement. As of June 30, 2020, the Company has sold 192,471 shares of common stock for gross proceeds of \$250,000 under the 2020 Purchase Agreement and through July 31, 2020, the Company has sold 1.1 million shares of common stock for gross proceeds of \$2.3 million.

#### *2019 Purchase Agreement ("2019 Purchase Agreement") with Lincoln Park*

On June 6, 2019, the Company entered into the 2019 Purchase Agreement with Lincoln Park to place up to \$10.0 million in the aggregate of the Company's common stock on an ongoing basis when required by the Company over a term of 24 months. On August 6, 2019 the Company conducted a Special Meeting of Shareholders whereby the Company received such approval to sell up to 3.2 million shares of common stock under the 2019 Purchase Agreement. Following effectiveness of a registration statement on Form S-1 relating to the resale of the shares subject to the 2019 Purchase Agreement on June 18, 2019, the Company began selling shares of its common stock to Lincoln Park under the terms of the 2019 Purchase Agreement. On September 11, 2019, October 28, 2019 and February 28, 2020 the Company filed subsequent registration statements on Form S-1, which were declared effective on September 20, 2019, November 7, 2019 and March 6, 2020, respectively, registering for resale additional shares under the 2019 Purchase Agreement. During the quarter ended June 30, 2020 the Company sold 623,236 shares of common stock for gross proceeds of \$593,356. The 2019

**WESTWATER RESOURCES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

Purchase Agreement was terminated in May 2020 with historical sales of 3.2 million shares of common stock for gross proceeds of \$7.7 million.

*Securities Purchase Agreement with Lincoln Park*

On May 24, 2019, Westwater entered into a Securities Purchase Agreement, as amended by Amendment No. 1 thereto dated as of May 30, 2019, with Lincoln Park, pursuant to which the Company agreed to issue and sell to Lincoln Park, and Lincoln Park agreed to purchase from the Company (i) 104,294 shares of the Company's common stock and (ii) warrants to initially purchase an aggregate of up to 182,515 shares of common stock, at an exercise price of \$5.062 per share. On May 30, 2019, the Company issued and sold the common shares and the warrants to Lincoln Park and received aggregate gross proceeds before expenses of \$550,751. The warrants became exercisable on November 30, 2019 and may be exercised at any time thereafter until November 30, 2024.

*ATM Offering Agreement with Cantor*

On April 14, 2017, the Company entered into the ATM Offering Agreement with Cantor acting as sales agent. Under the ATM Offering Agreement, the Company may from time to time sell shares of its common stock in "at-the-market" offerings and \$3.1 million of which shares were registered for sale under a registration statement on Form S-3, which was declared effective on April 13, 2020. The Company pays Cantor a commission of up to 2.5% of the gross proceeds from the sale of any shares pursuant to the ATM Offering Agreement. As of June 30, 2020, the Company had sold 1,959,422 shares of common stock for net proceeds of \$10.2 million under the ATM Offering Agreement, of which 930,225 shares of common stock and net proceeds of \$3.0 million was sold in the three months ended June 30, 2020. As a result, the Company has approximately \$19.5 million remaining available for future sales under the ATM Offering, but had no shares of common stock registered for sale under the ATM Offering Agreement as of June 30, 2020.

**Warrants**

The following table summarizes warrants outstanding and changes for the three-month periods ending June 30, 2020 and 2019:

|   | <u>June 30, 2020</u>      | <u>June 30, 2019</u>      |
|---|---------------------------|---------------------------|
|   | <u>Number of Warrants</u> | <u>Number of Warrants</u> |
| Warrants outstanding at beginning of period | 186,182                   | 197,621                   |
| Issued                                      | —                         | —                         |
| Expired                                     | —                         | —                         |
| Warrants outstanding at end of period       | <u>186,182</u>            | <u>197,621</u>            |

**10. STOCK-BASED COMPENSATION**

Stock-based compensation awards consist of stock options, restricted stock units and bonus shares issued under the Company's equity incentive plans which include: the 2013 Omnibus Incentive Plan (the "2013 Plan") and the Amended and Restated 2004 Directors' Stock Option and Restricted Stock Plan (the "2004 Directors' Plan"). Upon approval of the 2013 Plan by the Company's stockholders on June 4, 2013, the Company's authority to grant new awards under all plans other than the 2013 Plan was terminated. On July 18, 2017, April 18, 2019 and April 28, 2020, the Company's stockholders approved amendments to the 2013 Plan to increase the authorized number of shares of common stock available and reserved for issuance under the 2013 Plan by 20,000 shares, 66,000 and 350,000 shares, respectively and in 2017 re-approve the material terms of the performance goals under the plan. Under the 2013 Plan, the Company may grant awards of stock options, stock appreciation rights, restricted stock awards, restricted stock units ("RSUs"), unrestricted stock,

**WESTWATER RESOURCES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

dividend equivalent rights, performance shares and other performance-based awards, other equity-based awards and cash bonus awards to eligible persons. The maximum number of the Company's common stock that may be reserved for issuance under the 2013 Plan is currently 416,278 shares of common stock, plus unissued shares under the prior plans. Equity awards under the 2013 Plan are granted from time to time at the discretion of the Compensation Committee of the Board (the "Committee"), with vesting periods and other terms as determined by the Committee with a maximum term of 10 years. The 2013 Plan is administered by the Committee, which can delegate the administration to the Board, other Committees or to such other officers and employees of the Company as designated by the Committee and permitted by the 2013 Plan.

As of June 30, 2020, 58,586 shares were available for future issuances under the 2013 Plan. For the six months ending June 30, 2020 and 2019, the Company recorded stock-based compensation expense of \$27,771 and \$15,424, respectively. Stock compensation expense is recorded in general and administrative expenses.

In addition to the plans above, upon closing of the Company's acquisition of Alabama Graphite in April 2018, the Company issued 50,168 replacement options and warrants to the option and warrant holders of Alabama Graphite. The number of replacement options and warrants shares was determined using the arrangement exchange rate of 0.0016. The exercise prices for the option and warrant shares were first converted for the exchange rate of 0.0016 and then converted to USD using the exchange rate on December 13, 2017 of 0.77809 (CAD to USD). The options and warrant shares were issued with the same terms and conditions as were applicable prior to the acquisition of Alabama Graphite. As of June 30, 2020, there were 2,840 replacement options outstanding but all replacement warrants have expired.

**Stock Options**

The following table summarizes stock options outstanding and changes for the six-month periods ending June 30, 2020 and 2019:

|  | June 30, 2020                 |  | June 30, 2019                 |  |

**WESTWATER RESOURCES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

***Restricted Stock Units***

Time-based and performance-based RSUs are valued using the closing share price of the Company's common stock on the date of grant. The final number of shares issued under performance-based RSUs is generally based on the Company's prior year performance as determined by the Compensation Committee of the Board of Directors at each vesting date, and the valuation of such awards assumes full satisfaction of all performance criteria.

The following table summarizes RSU activity for the three-month periods ended June 30, 2020 and 2019:

|                                      | <u>June 30,</u><br><u>2020</u>  |  | <u>June 30,</u><br><u>2019</u>  |  |

**11. EARNINGS PER SHARE**

Basic and diluted loss per common share have been calculated based on the weighted-average shares outstanding during the period. Additionally, potentially dilutive shares of 559,576 were excluded from the calculation of earnings per share because the effect on the basic income per share would be anti-dilutive for the six months ended June 30, 2020.

**12. COMMITMENTS AND CONTINGENCIES**

The Company's uranium recovery operations are subject to federal and state regulations for the protection of the environment, including water quality. Future closure and reclamation costs are provided for as each pound of uranium is produced on a unit-of-production basis. The Company reviews its reclamation obligations each year and determines the appropriate unit charge. The Company also evaluates the status of current environmental laws and their potential impact on their accrual for costs. The Company believes its operations are materially compliant with current environmental regulations.

At any given time, the Company may enter into negotiations to settle outstanding legal proceedings and any resulting accruals will be estimated based on the relevant facts and circumstances applicable at that time. We do not expect that such settlements will, individually or in the aggregate, have a material effect on our financial position, results of operations or cash flows.

**13. LEASES**

The Company's lease portfolio consists of operating leases for corporate offices, storage space and equipment. The leases have remaining lease terms of 1 to 3.5 years, one of which includes an option to extend the corporate office lease for 3 years. Under our corporate office lease, we are required to reimburse the lessor each month for common use expenses such as maintenance and security services. Because these amounts are variable from year to year and not specifically set in the lease terms, they are not included in the measurement of the right-of-use asset and related lease liability, but rather expensed in the period incurred.

**WESTWATER RESOURCES, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
(unaudited)

The Company is party to several leases that are for under one year in length. These include such leases as those for land used in exploration and mining activities, office equipment, machinery, office space, storage and other. The Company has elected the short-term lease exemptions allowed under the new leasing standards, whereby leases with initial terms of one year or less are not capitalized and instead expensed on a straight-line basis over the lease term. In addition, the Company holds numerous leases related to mineral exploration and production to which it has not applied the new leasing standard. Leases to explore or use minerals and similar nonregenerative resources are specifically excluded by ASC 842-10.

The right-of-use assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities are recognized at the commencement date of the lease based on the present value of lease payments over the lease term using a discount rate of 9.5%. This rate is the Company's current estimated incremental borrowing rate.

The components of lease expense are as follows:

| <u>(thousands of dollars)</u> | <u>Six months<br/>ended<br/>June 30,<br/>2020</u> | <u>Six months<br/>ended<br/>June 30,<br/>2019</u> |
|-------------------------------|---|---|
| Operating lease cost          | \$ 81   | \$ 81   |

Supplemental cash flow information related to the Company's operating leases is as follows:

| <u>(thousands of dollars)</u>  | <u>Six months<br/>ended<br/>June 30, 2020</u> | <u>Six months<br/>ended<br/>June 30, 2019</u> |

| Discount Rate                                    | 9.5 %            | 9.5 %            |

Maturities of lease liabilities for the Company's operating leases are as follows:

| Lease payments by year (In thousands) | June 30,<br>2020 |
|---------------------------------------|------------------|
| 2020 (remainder of year )             | \$ 81            |
| 2021                                  | 161              |
| 2022                                  | 162              |
| 2023                                  | 92               |
| <b>Total lease payments</b>           | <b>496</b>       |
| Less imputed interest                 | (62)             |
| <b>Total</b>                          | <b>\$ 434</b>    |

As of June 30, 2020, the Company has \$0.4 million in right-of-use assets and \$0.4 million in related lease liabilities (\$0.2 million of which is current). The most significant operating lease is for its corporate office in Centennial, Colorado, with \$0.5 million remaining in undiscounted cash payments through the end of the lease term in 2023. The total undiscounted cash payments remaining on operating leases through the end of their respective terms is \$0.5 million.

#### **14. GEOGRAPHIC AND SEGMENT INFORMATION**

In addition to its corporate operations, the Company currently operates in three reportable segments, which are uranium, lithium and graphite mining activities, including exploration, standby operations and restoration and reclamation activities. As a part of these activities, the Company explores, evaluates and, if warranted, develops uranium, lithium and graphite properties. The Company's long-term assets were \$24.6 million as of both June 30, 2020 and December 31, 2019. 100% of the long-term assets are located in the United States. The Company reported no revenues during the six months ended June 30, 2020 and June 30, 2019.

The reportable segments are those operations whose operating results are reviewed by the Chief Executive Officer to make decisions about resources to be allocated to the segment and assess its performance provided those operations pass certain quantitative thresholds. Operations whose revenues, earnings or losses or assets exceed or are expected to exceed 10% of the total consolidated revenue, earnings or losses or assets are reportable segments. Information about current assets and liabilities of the segments has not been provided because the information is not used to assess performance.

## 15. NOTES PAYABLE

### *Loan under the Paycheck Protection Program (PPP)*

On May 4, 2020, URI, Inc, a wholly owned subsidiary of Westwater, received loan proceeds in the amount of \$0.3 million under the Paycheck Protection Program (“PPP”) in accordance with the terms of a promissory note executed in favor of Celtic Bank Corporation, a Salt Lake City based Small Business Administration (“SBA”) Preferred Lender. The PPP, established as part of the Coronavirus Aid, Relief and Economic Security Act (“CARES Act”), provides for forgivable loans to qualifying businesses for amounts up to 2.5 times of the average monthly payroll expenses of the qualifying business. The loan and accrued interest are forgivable as long as the borrower uses the loan proceeds for eligible purposes, including payroll costs, rent and utilities. No more than 40% of the amount forgiven can be attributable to non-payroll costs. Any unforgiven portion of the PPP loan is payable over two years at an interest rate of 1%, with a deferral of payments for the first six months. According to terms of the promissory note from Celtic Bank, the first payment of principal and interest is due November 30, 2020, with subsequent payments due at the end of each month through the loan maturity date of April 30, 2022.

The Company used the proceeds for funding its payroll and benefits costs for the restart of South Texas operations, purposes consistent with the PPP. The Company’s South Texas operations were shut down and employees furloughed in March 2020 due to the severe downturn in the capital markets and uncertainty about when economic conditions would return to normal. While the Company currently believes that its use of the loan proceeds will meet the conditions for forgiveness of the loan and is in the process of preparing the SBA’s forgiveness application, no assurance can be provided that the Company will obtain forgiveness of the loan, in whole or in part. At June 30, 2020 the loan proceeds are presented on the balance sheet as current and long-term debt based on the schedule of repayments and excluding any possible forgiveness of the loans.

The following table summarizes notes payable related to the PPP loan on the balance sheet as of June 30, 2020:

| <b>(thousands of dollars)</b> | <b>June 30,<br/>2020</b> |
|-------------------------------|--------------------------|
| Notes payable                 | \$ 331                   |
| Less: current maturities      | (146)                    |
| Notes payable, net of current | <u>\$ 185</u>            |

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following management's discussion and analysis of the consolidated financial results and condition of Westwater for the three and six months ended June 30, 2020 has been prepared based on information available to us as of August 5, 2020. This discussion should be read in conjunction with the unaudited Condensed Consolidated Financial Statements and notes thereto included herewith and the audited Consolidated Financial Statements of WWR for the period ended December 31, 2019 and the related notes thereto filed with our Annual Report on Form 10-K, which have been prepared in accordance with U.S. GAAP. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including, but not limited to, those set forth elsewhere in this report. See "Cautionary Note Regarding Forward-Looking Statements."

### **INTRODUCTION**

Westwater Resources, Inc. is a 40-year-old public company trading on the Nasdaq Capital Market under the symbol "WWR." Originally incorporated in 1977 as Uranium Resources, Inc. to mine uranium in Texas, our company has been reborn as a diversified energy materials developer. Westwater now has a presence in uranium, lithium exploration, and battery-ready graphite materials after its acquisition of Alabama Graphite Corp. ("Alabama Graphite") in April 2018. In addition, Westwater recently discovered significant vanadium concentrations at the Coosa Graphite Project (the "Coosa Project") in Alabama and has an exploration plan available to further investigate the size and extent of those concentrations.

Westwater holds battery-ready graphite development properties in Alabama, properties with lithium exploration potential in Nevada and Utah, two idled uranium production properties in Texas and several uranium properties in Texas and New Mexico. Westwater ceased uranium production in 2009 due to reductions in the price of uranium, although Westwater's uranium properties and facilities in Texas can be restarted once the price of uranium recovers to acceptable levels.

### **RECENT DEVELOPMENTS**

#### ***Graphite Business Developments***

Westwater's graphite business plan continues without pause. The Company and its consultants continue to produce results that inform pilot plant operations, which are presently scheduled for the fourth quarter of 2020. Westwater remains focused on the battery materials markets, the end markets for those products, and the role that can be played in supplying critical materials to serve them.

In June 2020, Westwater announced that independent testing of Westwater's ULTRA-PMG™ battery graphite material has shown outstanding resistivity values as a conductive additive. This milestone achievement is a critical step in developing Westwater's battery graphite business. PMG is one of the key products in the Coosa Project business plan being produced at laboratory-scale using proprietary processes that Westwater intends to utilize in the pilot program later this year. Successful performance testing demonstrates that Westwater can manufacture ULTRA-PMG™ as a premium-grade, conductive enhancement material for all types of batteries at larger scale.

In July 2020, Westwater announced that independent performance testing of Westwater's ULTRA-CSPG™ (Coated Spherical Purified Graphite "CSPG") material produced in a laboratory setting shows that it performs as well or better than benchmark commercially available natural flake and synthetic materials. ULTRA-CSPG™ is Westwater's anode material which is utilized in lithium ion batteries, which are used in the fast-growing electric vehicle market.

### ***Sales and Marketing Executive***

After a comprehensive search process that yielded many highly qualified candidates, Westwater hired Jay Wago as Vice President – Sales and Marketing on July 1, 2020. Mr. Wago is a proven sales leader, whose unique skills and experience will be instrumental in leading Westwater’s sales and marketing efforts for our battery graphite materials business. The addition of Mr. Wago will help position Westwater to scale its marketing efforts to generate greater awareness of our American-made battery graphite materials to end-users throughout the world.

### ***Graphite, Lithium, Uranium, and Vanadium Listed as Critical Materials***

A Presidential Executive Order on a Federal Strategy to Ensure Secure and Reliable Supplies of Critical Minerals was issued on December 20, 2017, which we believe will result in important energy related mineral development in the United States. In conjunction with Professional Paper 1802, published by the US Geological Service (“USGS”), where 23 minerals are identified as critical to the Country’s security and economy, WWR believes these actions are important steps in support of domestic minerals development. One of the important steps outlined in the Executive Order required a list of critical minerals to be provided by the US Secretary of the Interior. This list was subsequently provided and included all of WWR’s contemplated portfolio products consisting of graphite, lithium and uranium. The discovery of vanadium on our Alabama property adds an additional element to Westwater’s portfolio of critical elements. Graphite and lithium, in particular, are critical to the development of batteries and other energy storage systems essential to the electric vehicle, solar and wind power industries, while vanadium is a lightweight metal used in the construction industry, in high strength steel alloys, and in large grid storage batteries.

### ***Creation of The President’s Nuclear Fuels Working Group***

On July 1, 2019, President Trump ordered a review of the domestic nuclear supply chain (uranium production, conversion, enrichment and fabrication) in the context of the 2017 White House initiative to revive, revitalize and expand the nuclear energy sector.

Accordingly, to address concerns regarding the production of domestic uranium and ensure a comprehensive review of the domestic nuclear supply chain, the President directed that a Nuclear Fuel Working Group (“NFWG”) be established. The NFWG includes the Secretary of State, Secretary of Energy and Secretary of Defense, among other key officials.

On April 23, 2020, the U.S. Department of Energy (“DOE”) announced the NFWG’s strategy to revive the U.S. uranium industry in a report entitled “Strategy to Restore American Nuclear Energy Leadership.” The most important recommendations in the report for the uranium mining sector are:

- U.S. purchases of 17-19 million pounds of U3O8 for a strategic uranium reserve, beginning in 2020 from domestic producers using a competitive bidding process.
- DOE will end the uranium bartering program and reevaluate DOE’s Excess Uranium Inventory Management Policy.
- Streamline regulatory reform and land access for uranium extraction.
- Support Department of Commerce efforts to extend the Russian Suspension Agreement to protect against future uranium dumping in the U.S. market.
- Enable the Nuclear Regulatory Commission to deny imports of nuclear fuel fabricated in Russia or China for national security purposes.

- Fund advanced water treatment technology for uranium mining and in-situ recovery.
- Increase efficiencies in the export processes and the adoption of 123 Agreements to open new markets for exports of U.S. civil nuclear technology, materials and fuel.

### ***Global Pandemic and our Actions to Ensure Safety***

On March 11, 2020, the World Health Organization designated COVID-19 as a global pandemic. The pandemic spread outside of China during the first quarter of 2020 and has impacted businesses throughout the world. In the U.S., many state and local governments have, based on local conditions, either recommended or mandated actions to slow the transmission of COVID-19. These measures range from limitations on crowd size, together with closures of bars and dine-in restaurants, to mandatory orders for non-essential citizens to “shelter in place” or “stay at home” until further direction. Borders between many countries have been closed to contain the spread of COVID-19. Uncertainty with respect to the economic effects of the pandemic has introduced significant volatility in the financial markets.

This pandemic, and the resultant uncertain economic conditions it has created, could adversely affect our operations, major facilities, or employees’ health. Westwater has the following priorities while managing business activities during this period of volatility and uncertainty:

- First, to ensure the health and safety of employees and the communities where they work.
- Second, to work with business partners to maintain the advanced graphite product development schedule.
- Third, to ensure adequate financial liquidity to support key operations and business activities.

Westwater’s corporate business activities are largely unaffected at this time. Even though Westwater closed offices, remote working arrangements were instituted to ensure that employees were able to work remotely using systems that already were in place. Westwater’s continued focus on the health and safety of employees, the safety of operations, and the safety of the communities in which our employees live and work remains paramount. To that end, Westwater eliminated unnecessary travel, instituted health protocols for working together, and ensured that employees are permitted to take time off due to illness or the illness of those around them without penalty. As a result, our corporate business activities will continue on as before, without interruption.

In South Texas, due to tumultuous capital markets and uncertain economic conditions created by the pandemic, Westwater shut down restoration and reclamation operations and furloughed employees in March 2020. Westwater complied with stay at home orders issued by county and state jurisdictions. After consultation with the Texas Commission on Environmental Quality, Westwater maintained certain critical permit compliance activities with a limited workforce. Upon receipt of the PPP loan proceeds, Westwater reinstated employees and restarted restoration and reclamation activities on May 4, 2020.

To the extent that the COVID-19 pandemic continues or worsens, local governments or governmental agencies may impose additional restrictions. The result of COVID-19 and those restrictions could result in a number of adverse impacts to Westwater’s business, including but not limited to additional disruption to the economy, additional work restrictions, and supply chains being interrupted, slowed, or rendered inoperable. As a result, it may be challenging to obtain and process raw materials to support business needs, and individuals could become ill, quarantined, or otherwise unable to work and/or travel due to health reasons or governmental restrictions. Also, governments may impose other laws, regulations or taxes which could adversely impact Westwater’s business, financial condition or results of operations. The potential effects of COVID-19 could also impact Westwater in a number of other ways including, but not limited to, laws and regulations affecting business, the availability of future borrowings, the cost of borrowings, and potential impairment of the carrying value of long-lived tangible assets.

### ***Payroll Protection Loan***

The Paycheck Protection Program (or “PPP”) was established under the congressionally-approved Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”) and is administered by the U.S. Small Business Administration (“SBA”). The Paycheck Protection Program is a loan designed to provide a direct incentive for small businesses to keep their workers on the payroll. On May 4, 2020, URI, Inc, a wholly owned subsidiary of Westwater, received loan proceeds in the amount of \$0.3 million under the Paycheck Protection Program in accordance with the terms of a promissory note executed in favor of Celtic Bank Corporation, a Salt Lake City based SBA Preferred Lender. The loan and accrued interest are forgivable after eight weeks as long as the loan proceeds are used for eligible purposes, including payroll and benefits costs, rent and utilities. Any unforgiven portion of the PPP loan is payable over two years at an interest rate of 1%, with a deferral of payments for the first six months and the first payment of principal and interest due on November 30, 2020.

Between February 14, 2020 and March 16, 2020, the Company’s share price decreased 63% due to turmoil in the equity capital markets from the COVID-19 pandemic discussed above. This significantly impacted the Company’s financing facilities because registered share capacity was exhausted faster than anticipated due to the significant decrease in share price. For instance, the number of registered shares approved by shareholders available under the Company’s 2019 Purchase Agreement with Lincoln Park 2019 was exhausted in April 2020 with \$2.3 million of remaining usable capacity lost. As a result of the severe downturn in the capital markets and uncertainty about when economic conditions would return to normal, the Company shut down its South Texas operations and implemented other cost reduction initiatives. When the CARES Act was passed and PPP loan eligibility rules were promulgated, the Company’s interpretation of the rules were that the loan proceeds could be used for payroll and benefits of URI’s furloughed employees which would allow restart of operations in South Texas. Accordingly, the Company used the proceeds for funding its payroll and benefits costs for its South Texas operations over a 10-week period during the months of May, June and July, purposes consistent with the PPP. While the Company currently believes that its use of the loan proceeds will meet the conditions for forgiveness of the loan, no assurance can be provided that the Company will obtain forgiveness of the Loan, in whole or in part.

### ***Equity Financings***

#### *2020 Purchase Agreement (“2020 Purchase Agreement”) with Lincoln Park Capital Fund, LLC (“Lincoln Park”)*

On May 21, 2020, the Company entered into the 2020 Purchase Agreement, as amended on May 29, 2020, with Lincoln Park to place up to \$12.0 million in the aggregate of the Company’s common stock on an ongoing basis when required by the Company over a term of 24 months. Westwater will control the timing and amount of any sales to Lincoln Park, and Lincoln Park is obligated to make purchases in accordance with the 2020 Purchase Agreement. Any common stock that is sold to Lincoln Park will occur at a purchase price that is based on an agreed upon fixed discount to the Company’s prevailing market prices at the time of each sale and with no upper limits to the price Lincoln Park may pay to purchase common stock. The 2020 Purchase Agreement may be terminated by Westwater at any time, in its sole discretion, without any additional cost or penalty.

The 2020 Purchase Agreement specifically provides that the Company may not issue or sell any shares of its common stock under the 2020 Purchase Agreement if such issuance or sale would breach any applicable rules of The Nasdaq Capital Market. In particular, Nasdaq Listing Rule 5635(d) provides that the Company may not issue or sell more than 19.99% of the shares of the Company’s common stock outstanding immediately prior to the execution of the 2020 Purchase Agreement without shareholder approval. The Company received such shareholder approval to sell up to 8.0 million shares of common stock under the 2020 Purchase Agreement at its Annual Shareholders Meeting conducted on April 28, 2020.

Lincoln Park has no right to require the Company to sell any shares of common stock to Lincoln Park, but Lincoln Park is obligated to make purchases as the Company directs, subject to certain conditions. In all instances, the Company may not sell shares of its common stock to Lincoln Park under the 2020 Purchase Agreement if it would result in Lincoln Park beneficially owning more than 9.99% of its common stock. As an initial purchase on May 21, 2020, Lincoln Park bought \$250,000 worth of Common Stock of the Company at a price of \$1.2989 per share. The Company issued 156,250

shares of Common Stock to Lincoln Park as consideration for its commitment to purchase shares of Common Stock under the 2020 Purchase Agreement.

Also, on May 21, 2020, the Company entered into a registration rights agreement with Lincoln Park pursuant to which the Company filed a registration statement on Form S-1 with the SEC, which was declared effective on June 26, 2020 relating to the resale of an initial tranche of 1,971,000 shares subject to the 2020 Purchase Agreement. As of June 30, 2020, the Company has sold 192,471 shares of common stock for gross proceeds of \$250,000 under the 2020 Purchase Agreement and through July 31, 2020, the Company has sold 1.1 million shares of common stock for gross proceeds of \$2.3 million.

### ***Turkish Government Taking of Temrezli and Sefaati Licenses and Westwater's Arbitration Filing and Proceedings***

On January 27, 2020, Westwater filed a Claimant's Memorial (the "Memorial") in its arbitration proceeding against the Republic of Turkey ("Turkey"). The Memorial relates to Westwater's request for arbitration submitted to the International Centre for the Settlement of Investment Disputes ("ICSID") in December 2018 as a result of Turkey's unlawful actions against Westwater's investments at the Temrezli and Sefaati uranium projects owned by Westwater's Turkish subsidiary Adur Madencilik Limited Sirketi.

The Memorial sets forth the basis for Westwater's claims under the treaty between the United States and Turkey concerning the reciprocal encouragement and protection of investments and international law generally, as well as the basis for the jurisdiction of the tribunal constituted on May 1, 2019 following ICSID's registration of Westwater's request for arbitration. The Memorial also establishes the reparations owed by Turkey for breach of its international obligations towards Westwater, consisting of no less than \$36.5 million, plus costs and post-award interest, as compensation for Westwater's resulting loss of its investment. Accompanying the Memorial is an expert report regarding the reparations owed to Westwater. In determining the amount of Westwater's loss, the expert report considered (i) the projected future cash flows from the expropriated projects, discounted to present value by a risk-adjusted discount rate, (ii) valuations from transactions for similar projects, and (iii) in the case of the Sefaati project, the amounts invested in the project.

On March 11, 2020, Turkey filed a request to bifurcate the arbitration proceeding, and on March 30, 2020, Westwater filed a response in opposition to Turkey's request for bifurcation. On April 28, 2020, the arbitral tribunal denied Turkey's bifurcation request. On May 13, 2020, Turkey filed with the arbitral tribunal a request, which Westwater elected not to oppose, to extend the date on which their Counter-Memorial must be filed (and to change dates for subsequent pleadings as well as document production and witness identification deadlines), which the tribunal approved on June 3, 2020. As a result of these decisions by the tribunal, Turkey must file its Counter-Memorial on or before September 14, 2020, and the hearing on the substantive issues and damages is scheduled for September 13-17, 2021. Overall, the filing on May 13, 2020 had no effect on the timing of the hearing in 2021.

Additional information regarding the ICSID arbitration proceeding is presented in Part II, Item 1 below.

## **RESULTS OF OPERATIONS**

### ***Summary***

Our consolidated net loss for the three months ended June 30, 2020 was \$2.5 million, or \$0.43 per share, as compared with a consolidated net loss of \$2.8 million, or \$1.81 per share for the same period in 2019. The \$0.3 million decrease in our consolidated net loss from the respective prior period was the result of a decrease in mineral property expenses in the current year in an effort to conserve cash during the economic uncertainties arising from the COVID-19 pandemic and a decrease in arbitration costs due to minimal scheduled proceedings during the current quarter.

Our consolidated net loss for the six months ended June 30, 2020 was \$5.8 million, or \$1.18 per share, as compared with a consolidated net loss of \$5.9 million, or \$3.95 per share for the same period in 2019. The \$0.1 million decrease in our consolidated net loss from the respective prior period was partially the result of a \$0.7 million loss on the sale of securities comprised of Laramide shares and warrants in the first half of 2019 offset by interest income from the Laramide promissory note. No such losses or interest income was recorded for the same period in 2020.

### Mineral Property Expenses

The following table details our mineral property expenses for the three and six months ended June 30, 2020 and 2019:

|  | For the Three months Ended<br>June 30, |               | For the Six months ended<br>June 30, |                 |
|--|--|---------------|--------------------------------------|-----------------|
|  | 2020                                   | 2019          | 2020                                 | 2019            |
|  | (thousands of dollars)                 |               |                                      |                 |
| <b>Restoration/Recovery expenses</b>         |  |               |                                      |                 |
| Kingsville Dome project                      | \$ 1                                   | \$ —          | \$ 2                                 | \$ —            |
| Rosita project                               | 1                                      | 11            | 1                                    | (8)             |
| Vasquez project                              | 5                                      | 40            | 5                                    | 77              |
| Total restoration/recovery expenses          | 7                                      | 51            | 8                                    | 69              |
| <b>Standby care and maintenance expenses</b> |  |               |                                      |                 |
| Kingsville Dome project                      | 162                                    | 133           | 334                                  | 286             |
| Rosita project                               | 116                                    | 84            | 203                                  | 201             |
| Vasquez project                              | 99                                     | 69            | 182                                  | 143             |
| Total standby care and maintenance expenses  | 377                                    | 286           | 719                                  | 630             |
| <b>Exploration and evaluation costs</b>      | —                                      | (4)           | —                                    | 60              |
| <b>Land maintenance and holding costs</b>    | 192                                    | 475           | 451                                  | 667             |
| <b>Total mineral property expenses</b>       | <u>\$ 576</u>                          | <u>\$ 808</u> | <u>\$ 1,178</u>                      | <u>\$ 1,426</u> |

For the three and six months ended June 30, 2020, mineral property expenses decreased by \$0.2 million from the corresponding periods during 2019. The decreases were primarily due to the timing of the annual lease rental for a uranium property in New Mexico. The full amount of lease rental is normally paid during the second quarter of the year but for the current year the leaseholder agreed to payments in seven monthly installments from May to November. At June 30, 2020 five monthly payments remained.

### General and Administrative Expenses

Significant expenditures for general and administrative expenses for the three and six months ended June 30, 2020 and 2019 were:

|  | For the Three months ended<br>June 30, |                 | For the Six months ended<br>June 30, |                 |
|--|--|-----------------|--------------------------------------|-----------------|
|  | 2020                                   | 2019            | 2020                                 | 2019            |
|  | (thousands of dollars)                 |                 |                                      |                 |
| Stock compensation expense                     | \$ 28                                  | \$ 8            | \$ 28                                | \$ 15           |
| Salaries and payroll burden                    | 766                                    | 725             | 1,533                                | 1,410           |
| Legal, accounting, and public company expenses | 470                                    | 761             | 1,123                                | 1,482           |
| Insurance and bank fees                        | 167                                    | 109             | 334                                  | 235             |
| Consulting and professional services           | 74                                     | 43              | 104                                  | 56              |
| Office expenses                                | 110                                    | 58              | 201                                  | 162             |
| Sales and marketing                            | 41                                     | (7)             | 99                                   | 11              |
| Other expenses                                 | 3                                      | 3               | 16                                   | 34              |
| Total  | <u>\$ 1,659</u>                        | <u>\$ 1,700</u> | <u>\$ 3,438</u>                      | <u>\$ 3,405</u> |

General and administrative expenses for the three and six months ended June 30, 2020 and 2019 remained relatively constant at \$1.7 million and \$3.4 million respectively.

### ***Arbitration Costs***

The majority of costs associated with the Request for Arbitration against the Republic of Turkey in 2020 occurred in the first quarter and slowed significantly in the second quarter resulting in a \$0.3 million decrease for the three months ended June 30, 2020 compared with the same period in 2019. During the six months ended June 30, 2020, the Company incurred arbitration related legal and expert consulting costs of \$0.7 million, a \$0.2 million increase over the \$0.5 million of costs incurred during the same period in 2019. The increase was due to the significant activity in January 2020 leading up to and following the filing of the Company's Memorial with ICSID on January 27, 2020. For further reference, see discussion in the Recent Developments section of this Part I and below at Part II, Item 1.

### ***Other Income and Expenses***

For the three months ended June 30, 2020, the \$0.1 million decrease in other income compared to the three months ended June 30, 2019 was primarily due to interest income from the Laramide promissory note recorded in 2019.

For the six months ended June 30, 2020, the \$0.4 million increase in other income compared to the six months ended June 30, 2019 was primarily due to the \$0.7 million loss on the sale of securities comprised of Laramide shares and warrants in the first half of 2019 offset by interest income from the Laramide promissory note. No such losses or interest income was recorded over the same period in 2020.

## **FINANCIAL POSITION**

### ***Operating Activities***

Net cash used in operating activities was \$6.0 million for the six months ended June 30, 2020, as compared with \$4.3 million for the same period in 2019. The \$1.7 million increase in cash used was primarily due to an increase in prepaid assets and a decrease in accounts payable and accrued liabilities in 2020.

### ***Investing Activities***

Net cash used for investing activities for the six months ended June 30, 2020 was \$0.1 million for the purchase of equipment, as compared with \$2.8 million of cash provided by investing activities for the six months ended June 30, 2019. For the 2019 period, the Company received note payments on the Laramide note in the amount of \$0.8 million in cash. Additionally, the Company received net proceeds of \$0.5 million from the sale of Laramide securities and \$1.5 million from URC as a deposit in accordance with the terms of the Asset Purchase Agreement signed on March 5, 2019. See Note 4 to our unaudited Condensed Consolidated Financial Statements included herewith for more information.

### ***Financing Activities***

Net cash provided by financing activities was \$6.6 million for the six months ended June 30, 2020, resulting primarily from the proceeds of sales of common stock through the Company's ATM Offering Agreement and the Lincoln Park 2019 Purchase Agreement and 2020 Purchase Agreement. Additionally, \$0.3 million was received from the PPP loan in May 2020. Net cash provided by financing activities for the same period in 2019 was \$1.1 million. The \$5.5 million increase was due to better financing capacity under the Company's financing agreements with Cantor and Lincoln Park in the first six months of 2020 compared to the same period in 2019.

## **LIQUIDITY AND CAPITAL RESOURCES**

The interim Condensed Consolidated Financial Statements of the Company have been prepared on a "going concern" basis, which means that the continuation of the Company is presumed even though events and conditions exist that, when considered in the aggregate, raise substantial doubt about the Company's ability to continue as a going concern because it is possible that the Company will be required to adversely change its current business plan or may be unable to meet its obligations as they become due within one year after the date that these financial statements were issued.

The Company last recorded revenues from operations in 2009 and expects to continue to incur losses as a result of costs and expenses related to maintaining its properties and general and administrative expenses. Since 2009, the Company has relied on equity financings, debt financings and asset sales to fund its operations and the Company expects to rely on these forms of financing to fund its operations into the near future. The Company will also continue to identify ways to reduce its cash expenditures.

The Company's current business plan requires working capital to fund non-discretionary expenditures for uranium reclamation activities, mineral property holding costs, early stage graphite battery-material product development costs and administrative costs. The Company intends to pursue project financing to support execution of the graphite business plan, including discretionary capital expenditures associated with ongoing graphite battery-material product development costs, construction of pilot plant facilities and construction of commercial production facilities. The Company's current lithium business plan will be funded by working capital; however, the Company is pursuing project financing including possible joint venture partners to fund discretionary greenfield exploration activities.

At June 30, 2020 the Company's cash balances were \$2.3 million and the Company had a working capital deficit balance of \$1.0 million. The Company's cash balance at July 31, 2020 is \$2.9 million. Subsequent to July 31, 2020, the Company expects to fund operations as follows:

- The Purchase Agreement with Lincoln Park Capital, LLC ("Lincoln Park") dated as of May 21, 2020 and as amended on May 29, 2020 (the "2020 Purchase Agreement"), the issuance of shares pursuant to which was approved by the Company's shareholders at the annual shareholders meeting on April 28, 2020. Pursuant to the 2020 Purchase Agreement, the Company may place up to \$12.0 million in the aggregate of the Company's common stock on an ongoing basis when required by the Company over a term of 24-months ending in May 2022. As of July 31, 2020, the Company has 722,279 registered shares for resale by Lincoln Park on a current Form S-1 and \$9.7 million remaining sales capacity under the 2020 Purchase Agreement, subject to periodic registration of shares on Form S-1.
- The Controlled Equity Offering Sales Agreement (the "ATM Offering Agreement") with Cantor Fitzgerald & Co. ("Cantor") which currently has \$19.5 million remaining sales capacity, subject to periodic registration of shares on Form S-3. The Company is currently eligible to, and intends to, register the sale of additional shares under the agreement on Form S-3 pursuant to the SEC's shelf registration rules.
- Other possible debt and equity financings and asset sales.

While the Company has been successful in the past in raising funds through equity and debt financings as well as through the sale of non-core assets, no assurance can be given that additional financing will be available to it in amounts sufficient to meet its needs, or on terms acceptable to the Company. Stock price volatility and uncertain economic conditions caused by the recent Covid-19 pandemic could significantly impact the Company's ability to raise funds through equity financing. In the event that we are unable to raise sufficient additional funds, we may be required to delay, reduce or severely curtail our operations or otherwise impede our on-going business efforts, which could have a material adverse effect on our business, operating results, financial condition, long-term prospects and ability to continue as a viable business. Considering all of the factors above, the Company believes there is substantial doubt regarding its ability to continue as a going concern.

#### **OFF-BALANCE SHEET ARRANGEMENTS**

We have no off-balance sheet arrangements.

#### **CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS**

With the exception of historical matters, the matters discussed in this report are forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from projections or estimates contained herein. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Such forward-looking statements include, without limitation, statements regarding the adequacy of funding, liquidity, the timing or occurrence of any future

drilling or production from the Company's properties, the ability of the Company to acquire additional properties or partner with other companies, the construction of pilot plant facilities and construction of commercial production facilities, the realization of expected benefits from recent business combinations and the Company's anticipated cash burn rate and capital requirements. Words such as "may," "could," "should," "would," "believe," "estimate," "expect," "anticipate," "plan," "forecast," "potential," "intend," "continue," "project" and variations of these words, comparable words and similar expressions generally indicate forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements. Actual results may differ materially from those expressed or implied by these forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements include, among others:

- the spot price and long-term contract price of graphite, vanadium, lithium and uranium;
- the ability of the Company to enter into and successfully close acquisitions, dispositions or other material transactions;
- the Company's ability to raise capital in the future;
- government regulation of the mining industry and the nuclear power industry in the United States;
- risks associated with our operations and the operations of our partners, including the impact of COVID-19;
- our expectations regarding the use of funds from the Company's PPP Loan and the potential for loan forgiveness under the terms of the PPP Loan;
- operating conditions at our projects;
- the world-wide supply and demand of graphite, vanadium, lithium and uranium;
- weather conditions;
- unanticipated geological, processing, regulatory and legal or other problems we may encounter;
- the results of our exploration activities, and the possibility that future exploration results may be materially less promising than initial exploration results;
- any graphite, vanadium, lithium or uranium discoveries not being in high enough concentration to make it economic to extract the metals;
- currently pending or new litigation or arbitration;
- our ability to continue to satisfy the listing requirements of the Nasdaq Capital Market;
- our ability to maintain and timely receive mining and other permits from regulatory agencies.

as well as other factors described elsewhere in this Quarterly Report on Form 10-Q, our 2019 Annual Report on Form 10-K and the other reports we file with the SEC. Most of these factors are beyond our ability to predict or control. Future events and actual results could differ materially from those set forth herein, contemplated by or underlying the forward-looking statements. Forward-looking statements speak only as of the date on which they are made. We disclaim any obligation to update any forward-looking statements made herein, except as required by law.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

As a smaller reporting company, we are not required to provide this information in our Quarterly Reports.

## **ITEM 4. CONTROLS AND PROCEDURES**

### ***Evaluation of Disclosure Controls and Procedures***

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its filings with the Securities and Exchange Commission (“SEC”) is recorded, processed, summarized and reported within the time period specified in the SEC’s rules and forms, and that such information is accumulated and communicated to management, including the Company’s Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management has recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply judgment in evaluating the Company’s controls and procedures.

During the fiscal period covered by this report, the Company’s management, with the participation of the Chief Executive Officer and Chief Financial Officer of the Company, carried out an evaluation of the effectiveness of the design and operation of the Company’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of June 30, 2020.

### ***Changes in Internal Controls***

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2020 that materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

## **PART II - OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS**

Information regarding reportable legal proceedings is contained in Part I, Item 3, “Legal Proceedings,” in our Annual Report on Form 10-K for the year ended December 31, 2019. There have been no material changes to the legal proceedings previously disclosed in the Annual Report on Form 10-K, other than as set forth below.

On December 13, 2018, Westwater filed a Request for Arbitration against the Republic of Turkey before the International Centre for the Settlement of Investment Disputes (“ICSID”), pursuant to the Treaty between the United States of America and the Republic of Turkey concerning the Reciprocal Encouragement and Protection of Investments. The Request for Arbitration was filed as a result of the Republic of Turkey’s unlawful actions against the Company’s licenses for the Temrezli and Sefaatli uranium projects owned by Westwater’s Turkish subsidiary Adur Madencilik Limited Sirketi (“Adur”). Specifically, in June 2018, the Turkish government cancelled all of Adur’s exploration and operating licenses with retroactive effect, rendering Westwater’s investment in Adur effectively worthless. While the Turkish authorities had variously issued, renewed and overseen these licenses for more than a decade, in June 2018 they asserted that those licenses were issued by mistake and that the Turkish government has a governmental monopoly over all uranium mining activities in Turkey, in violation of Westwater’s rights under both Turkish and international law. Westwater reached out on numerous occasions to the Turkish government to resolve this dispute amicably, to reinstate the licenses and to remedy Turkey’s unlawful actions, but to no avail.

As a result, on December 13, 2018, Westwater filed before ICSID its arbitration request against the Republic of Turkey. On December 21, 2018, ICSID registered Westwater’s Request for Arbitration. On May 1, 2019, the three-member ICSID Panel for the arbitration was established – one of the panel members was selected by Westwater, another was selected by Turkey, and the third panel member (serving as the Chair) was selected by the two party-appointed arbitrators. On September 9, 2019, the ICSID Panel issued Procedural Order #1, which places the locale for the proceeding in Washington, DC, and sets numerous dates for both parties to make various filings.

On January 27, 2020, Westwater filed its Memorial, which is a document that sets out Westwater’s case. On March 11, 2020, Turkey filed a request to bifurcate the arbitration proceeding, and on March 30, 2020, Westwater filed a response in opposition to Turkey’s request for bifurcation. In Procedural Order #2 issued on April 28, 2020, the arbitral tribunal denied Turkey’s bifurcation request. On May 13, 2020, Turkey filed with the arbitral tribunal a request which Westwater elected not to oppose, to extend the date on which their Counter-Memorial must be filed (and to change dates for subsequent pleadings as well as document production and witness identification deadlines), which the arbitral tribunal approved on June 3, 2020. As a result of these decisions by the tribunal, Turkey must file its Counter-Memorial on or before September 14, 2020, and the hearing on the substantive issues and damages is scheduled for September 13-17, 2021.

### **ITEM 1A. RISK FACTORS.**

There have been no material changes from those risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2019, as updated by the risk factor set forth in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2020, each of which is incorporated herein by reference.

### **ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.**

None

### **ITEM 3. DEFAULTS UPON SENIOR SECURITIES.**

None.

**ITEM 4. MINE SAFETY DISCLOSURES.**

Not applicable.

**ITEM 5. OTHER INFORMATION.**

None.

## ITEM 6. EXHIBITS.

| <b>Exhibit<br/>Number</b> | <b>Description</b>  |
|---------------------------|---|
| 10.1                      | Purchase Agreement, dated May 21, 2020, by and between the Company and Lincoln Park Capital Fund, LLC (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed on May 22, 2020).                    |
| 10.2                      | Registration Rights Agreement, dated May 21, 2020, by and between the Company and Lincoln Park Capital Fund, LLC (incorporated by reference to Exhibit 10.2 to the Company's Current Report on Form 8-K filed on May 22, 2020).         |
| 10.3                      | Amendment No. 1 to Purchase Agreement, dated May 29, 2020, by and between the Company and Lincoln Park Capital Fund, LLC (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed on June 1, 2020). |
| 31.1                      | Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.   |
