1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements for Westwater Resources, Inc. (the "Company," "we," "us," "WWR" or "Westwater"), have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The accompanying statements should be read in conjunction with the audited financial statements included in Westwater Resources, Inc.'s 2019 Annual Report on Form 10-K. In the opinion of management, all adjustments (which are of a normal, recurring nature) considered necessary for a fair presentation have been included. Operating results for the nine months ended September 30, 2020 are not necessarily indicative of the results that may be expected for any other period including the full year ending December 31, 2020.

Significant Accounting Policies

Our significant accounting policies are detailed in Note 1, *Summary of Significant Accounting Policies*, in the Notes to Consolidated Financial Statements within our Annual Report on Form 10-K for the year ended December 31, 2019.

Recently Adopted Accounting Pronouncements

In August 2018, the FASB issued ASU 2018-13, "Fair Value Measurement (ASC 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement". This update modifies the disclosure requirements for fair value measurements by removing, modifying or adding disclosures. The Company adopted this pronouncement effective January 1, 2020. The adoption of ASU 2018-13 has not had a material impact on the Company's consolidated financial statements.

Recently Issued Accounting Pronouncements

In December 2019, the FASB issued ASU 2019-12, "Income Taxes - Simplifying the Accounting for Income Taxes (Topic 740)" which is intended to simplify various aspects related to accounting for income taxes. ASU 2019-12 removes certain exceptions to the general principles in Topic 740 and also clarifies and amends existing guidance to improve consistent application. ASU 2019-12 will be effective for interim and annual periods beginning after December 15, 2020.

In June 2016, the FASB issued ASU 2016-13, "Measurement of Credit Losses on Financial Instruments". ASU 2016-13 will change how companies account for credit losses for most financial assets and certain other instruments. For trade receivables, loans and held-to-maturity debt securities, companies will be required to estimate lifetime expected credit losses and recognize an allowance against the related instruments. For available for sale debt securities, companies will be required to recognize an allowance for credit losses rather than reducing the carrying value of the asset. The adoption of this update, if applicable, will result in earlier recognition of losses and impairments. ASU 2016-13 will be effective for interim and annual periods beginning after December 15, 2022.

In November 2018, the FASB issued ASU 2018-19, "Codification Improvements to ASC 326, Financial Instruments – Credit Losses." ASU 2016-13 introduced an expected credit loss methodology for the impairment of financial assets measured at amortized cost basis. That methodology replaces the probable, incurred loss model for those assets. ASU 2018-19 is the final version of Proposed Accounting Standards Update 2018-270, which has been deleted. Additionally, the amendments clarify that receivables arising from operating leases are not within the scope of Subtopic 326-20. Instead, impairment of receivables arising from operating leases should be accounted for in accordance with ASC 842, Leases. ASU 2018-19 will be effective for interim and annual periods beginning after December 15, 2022.

The Company is currently evaluating ASU 2016-13, ASU 2018-19 and ASU 2019-12 for the potential impact of adopting this guidance on its financial reporting.

Cash, Cash Equivalents and Restricted Cash

The following table provides a reconciliation of cash, cash equivalents and restricted cash as reported within the consolidated balance sheet that sum to the total of the same such amounts shown in the statement of cash flows.

| | As of September 30, | | | | | | | |
|---|---------------------|------|-------|--|--|--|--|--|
| (thousands of dollars) | 2020 | 2019 | | | | | | |
| Cash and cash equivalents | \$ 5,480 | \$ | 716 | | | | | |
| Restricted cash included in assets held for sale (Note 8) | 3,000 | | 3,000 | | | | | |
| Restricted cash not included in assets held for sale | 807 | | 784 | | | | | |
| Cash, cash equivalents and restricted cash shown in the statement of cash flows | \$ 9,287 | \$ | 4,500 | | | | | |

The Company's restricted cash consists of funds held in money market accounts and used as collateral for performance obligation bonds. The funds are not available for the payment of general corporate expenses and are excluded from cash and cash equivalents. The performance obligation bonds are required for future restoration and reclamation obligations for the Company's South Texas uranium properties.

2. LIQUIDITY

The Company last recorded revenues from operations in 2009. Since 2009, the Company has relied on equity financings, debt financings and asset sales to fund its operations. The Company expects to rely on debt and equity financing to fund its operations into the near future. The Company will also continue its cost reduction initiatives to identify ways to reduce its cash expenditures.

In 2016, the Company began to incorporate energy-related materials into its business plan. Between 2016 and 2020 the Company obtained mineral leases in Nevada and Utah and evaluated a green-fields exploration program for lithium. In 2018, the Company acquired Alabama Graphite Corp. and its Coosa Graphite Project for the purpose of developing the only commercial sized graphite mineral deposit in the contiguous United States and production of advanced graphite products for use in batteries. In the third quarter of 2020, as further discussed below and as further discussed in Note 8, the Company made the strategic decision to focus most of its resources on its graphite business, agreeing to the sale of its uranium business and discontinuing its investment in its lithium mineral properties.

As of September 30, 2020, execution of the business plan for development of the Coosa Graphite Project was underway, with the commissioning of pilot plants for processing flake graphite into battery grade graphite products. The start-up of operations for those plants is expected to commence before the end of 2020 or shortly thereafter. The Company expects the pilot plant phase to last into mid-2021. The Company will use the data generated from the pilot plant operations to inform the requirements and specifications for building a commercial sized graphite processing facility. Pursuant to the Company's Preliminary Economic Assessment of the Coosa Graphite Project as modified, financing required for the estimated capital expenditures to construct the commercial plant is approximately \$120 million. Subject to financing, the Company expects the construction phase for the commercial plant to begin in the second half of 2021 and be completed in mid-2022. The Company expects to begin generating revenues from sales of advanced graphite products from the Coosa Graphite Project in 2023.

While executing on its graphite business plan, the Company has continued to fulfill its obligation to restore and reclaim its legacy uranium properties in South Texas. These activities have resulted in expenditures of approximately \$3.5 million per year, and these reclamation activities are expected to continue for an additional 4-5 years before completion. The Company has provided \$9.3 million in performance obligation bonds to the Texas Commission for Environment Quality as financial assurance related to its permits and licenses in South Texas, and has a recorded liability of

approximately \$6.0 million for asset retirement obligations on its balance sheet (see Note 9). In addition to its South Texas uranium operations, the Company has spent about \$0.5 million to \$1.0 million annually to maintain its uranium mineral property holdings in New Mexico.

In furtherance of the Company's strategic shift to graphite battery materials, on September 1, 2020 the Company entered into a Letter of Intent ("LOI") to sell its U.S. uranium business, including its U.S. uranium exploration assets in New Mexico and idled production assets in Texas to enCore Energy Corp. ("enCore") (see Note 8). The pending sale includes the elimination of the \$9.3 million bonding liability, the elimination of the \$6.0 million in asset retirement obligations, and the elimination of more than \$4.0 million in annual expenditures related to reclamation and compliance costs at the Company's Kingsville, Vasquez, and Rosita sites in South Texas and its New Mexico land holding costs. The Company anticipates that it will receive approximately US\$2.0 million of enCore common stock and retain royalty interests on the New Mexico uranium properties as consideration for the sale. This transaction is expected to close on or before December 31, 2020. The Company will retain its uranium interests in Turkey, which are subject to ongoing international arbitration proceeding. The Company's strategic shift to focus solely on its graphite business also resulted in its decision not to renew its lithium mineral leases in Nevada and Utah when the annual rentals of approximately \$0.2 million came due in late August 2020.

At September 30, 2020 the Company's cash balances were \$5.5 million. During the month of October 2020, the Company sold 8.5 million shares of common stock for net proceeds of \$50.2 million pursuant to its Controlled Equity Offering SM Sales Agreement with Cantor Fitzgerald & Co. ("Cantor") and its Purchase Agreement with Lincoln Park Capital LLC ("Lincoln Park") (see Note 17). The funding provided by these financing facilities has resulted in a cash balance of approximately \$53.3 million at October 31, 2020. Management believes the significant treasury balance has mitigated the Company's capital risk through 2021 as the Company's 2021 non-discretionary budget, budgeted graphite pilot plant program and the remaining budgeted product development initiatives are now fully funded. The Company is pursuing project financing to support primary funding of the capital expenditures for construction of the commercial plant set to occur in the second half of 2021.

Management believes the Company's current cash balance is sufficient to fund its planned non-discretionary expenditures through 2022. In addition to pursuing other project financing, the Company is evaluating the renewal of the Cantor and Lincoln Park financing facilities for use in funding any required contributions by the Company to support project financing for construction of the commercial graphite facility. While the Company has been successful in the past in raising funds through equity and debt financings as well as through the sale of non-core assets, no assurance can be given that additional financing will be available to it in amounts sufficient to meet its needs, or on terms acceptable to the Company. Stock price volatility and uncertain economic conditions caused by the COVID-19 pandemic could significantly impact the Company's ability to raise funds through equity financing. In the event funds are not available for project financing to complete construction of the commercial facility in 2022, the Company will be able to fund its non-discretionary expenditures, however, the Company may be required to change our planned business strategies.

3. NOTES RECEIVABLE

Laramide Note Receivable

As part of the consideration for the sale of Hydro Resources, Inc. (HRI) in January 2017, the Company received a promissory note in the amount of \$5.0 million, secured by a mortgage over the Churchrock and Crownpoint properties owned by Laramide Resources Ltd. ("Laramide"). The note had a three-year term and carried an initial interest rate of 5%. The Company received the first two installment payments of \$1.5 million each in January 2018 and January 2019. The final principal payment of \$2.0 million was due and payable on January 5, 2020. Interest was payable on a quarterly basis during the final year. Laramide had the right to satisfy up to half of the principal payments by delivering shares of its common stock to the Company, which shares were valued by reference to the volume weighted average price ("VWAP") for Laramide's common stock for the 20 trading days before their respective anniversaries of the initial issuance date in

January. The fair value of this note receivable was determined using the present value of the future cash receipts discounted at a market rate of 9.5%.

On August 30, 2019, the Company sold the promissory note (Note 4). Prior to August 30, 2019, the Company had received three tranches of Laramide common shares as partial consideration for the sale, which had resulted in the receipt of 2,218,133, 1,982,483 and 2,483,034 Laramide common shares in January 2017, January 2018 and January 2019, respectively. These share payments represented the initial consideration from the January 2017 sale of HRI and two note installments in January 2018 and January 2019. The first note installment in the amount of \$1.5 million in January 2018, consisted of \$750,000 in cash and the issuance of 1,982,483 of Laramide's common shares. The second note installment in the amount of \$1.5 million in January 2019, consisted of \$750,000 in cash and the issuance of 2,483,034 of Laramide's common shares. Additionally, Laramide made interest payments in the amount of \$96,022 in cash during the year ending December 31, 2019.

On March 25, 2019, the Company sold the third tranche of 2,483,034 Laramide common shares and 2,218,133 Laramide warrants resulting in net proceeds of \$0.5 million and a net loss on sale of marketable securities of \$0.7 million.

4. SALE OF URANIUM ASSETS

On March 5, 2019, the Company entered into an Asset Purchase Agreement with Uranium Royalty (USA) Corp. and Uranium Royalty Corp. (together "URC") for the sale of four of its royalty interests on future uranium production from mineral properties located in South Dakota, Wyoming and New Mexico, as well as the remaining amount of the Laramide promissory note in the amount of \$2.0 million as discussed in Note 3 above, for \$2.75 million, including \$0.5 million paid at signing. On June 28, 2019, Westwater and URC entered into an Amendment to the Asset Purchase Agreement. The Amendment extended the date for closing from July 31, 2019 to August 30, 2019. URC delivered an additional \$1.0 million as deposit to the Company upon signing the Amendment. The transaction closed on August 30, 2019 at which time the Company transferred ownership of the royalties and promissory note in exchange for the final payment of \$1.25 million.

The sale of these uranium assets was accounted for as an asset disposal. The Company recorded a net gain of \$0.7 million on disposal of uranium assets on its Consolidated Statements of Operations for the nine months ended September 30, 2019. At September 30, 2020, the gain has been reclassified to discontinued operations, which are reported as a separate component of Net Income/Loss for the prior periods on the Statement of Operations (see Note 8).

| URC Transaction | | |
|---|----|---------|
| (thousands of dollars) | - | |
| Total cash consideration received, net of transaction costs | \$ | 2,470 |
| Carrying value of promissory note | | (1,741) |
| Carrying value of royalty interests | | _ |
| Gain on disposal of uranium assets | \$ | 729 |

A discussion on the Company's current efforts to sell its remaining U.S. uranium business, including its uranium exploration assets in New Mexico and idled production assets in Texas to enCore Energy (see Note 8).

5. FINANCIAL INSTRUMENTS

Applicable accounting standards define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and establishes

a fair-value hierarchy that prioritizes the inputs used to measure fair value using the following definitions (from highest to lowest priority):

- Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that are observable at the measurement date.
- Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).
- Level 3 includes unobservable inputs that reflect management's assumptions about what factors market participants would use in pricing the asset or liability. These inputs are developed based on the best information available, including internal data.

The Company believes that the fair value of its assets and liabilities approximates their reported carrying amounts. The following table presents information about assets that were recorded at fair value on a recurring and non-recurring basis as of September 30, 2020 and December 31, 2019 and indicates the fair value hierarchy.

| | September 30, 2020 | | | | | | | | | | | | | |
|--|--------------------|--------|--------------------------|--------|----|--------|----|-------|--|--|--|--|--|--|
| (thousands of dollars) | I | evel 1 | Le | evel 2 | Le | evel 3 | | Total | | | | | | |
| Current Assets | | | | | | | | | | | | | | |
| Restricted cash included in assets held for sale | | 3,000 | | | | | | 3,000 | | | | | | |
| Total current assets recorded at fair value | \$ | 3,000 | \$ | | \$ | | \$ | 3,000 | | | | | | |
| Non-current Assets | | | | | | | | | | | | | | |
| Restricted cash not included in assets held for sale | \$ | 807 | \$ | _ | \$ | _ | \$ | 807 | | | | | | |
| Total non-current assets recorded at fair value | \$ | 807 | \$ | | \$ | | \$ | 807 | | | | | | |
| | | | December 31, 2019 | | | | | | | | | | | |
| (thousands of dollars) | I | evel 1 | Le | evel 2 | Le | evel 3 | | Total | | | | | | |
| Non-current Assets | | | | | | | | | | | | | | |
| Restricted cash included in assets held for sale | \$ | 3,000 | \$ | _ | \$ | _ | \$ | 3,000 | | | | | | |
| Restricted cash not included in assets held for sale | | 797 | | | | | | 797 | | | | | | |
| Total non-current assets recorded at fair value | \$ | 3,797 | \$ | | \$ | | \$ | 3,797 | | | | | | |

Assets that are measured on a recurring basis include the Company's marketable securities and restricted cash.

6. PROPERTY, PLANT AND EQUIPMENT

| | Net Book Value of Property, Plant and Equipment at September 30, 2020 | | | | | | | | | | | |
|--|---|-------|----|---------|------------|-------|-----------|----|----|--------|--|--|
| (thousands of dollars) | | Texas | | Alabama | New Mexico | | Corporate | | | Total | | |

| Total Property, Plant and Equipment | \$ | 2,307 | \$ | 8,972 | \$ | 3,900 | \$ | 24 | \$ | 15,203 | | |
| Property, Plant and Equipment included in assets held for sale | | 2,307 | | - | | 3,900 | | _ | | 6,207 | | |
| Property, Plant and Equipment from Continuing Operations | \$ | - | \$ | 8,972 | \$ | - | \$ | 24 | \$ | 8,996 | | |

| | Net Book Value of Property, Plant and Equipment at December 31, 2019 | | | | | | | | | | | |
|--|--|-------|---------|-------|------------|-------|-----------|----|----|--------|--|--|
| (thousands of dollars) | Texas | | Alabama | | New Mexico | | Corporate | | | Total | | |
| Uranium plant | \$ | 3,112 | \$ | - | \$ | - | \$ | - | \$ | 3,112 | | |
| Mineral rights and properties | | - | | 8,972 | | 7,806 | | - | | 16,778 | | |
| Other property, plant and equipment | | 424 | | - | | _ | | 23 | | 447 | | |
| Total Property, Plant and Equipment | \$ | 3,536 | \$ | 8,972 | \$ | 7,806 | \$ | 23 | \$ | 20,337 | | |
| Property, Plant and Equipment included in assets held for sale | | 3,536 | | - | | 7,806 | | - | | 11,342 | | |
| Property, Plant and Equipment from Continuing Operations | \$ | | \$ | 8,972 | \$ | - | \$ | 23 | \$ | 8,995 | | |

Included in the Property, Plant and Equipment tables above are the long-lived assets related to the Company's uranium business, which are reported in discontinued operations (see Note 8).

Impairment of Property, Plant and Equipment

The Company reviews and evaluates its long-lived assets for impairment on an annual basis or more frequently when events or changes in circumstances indicate that the related carrying amounts may not be recoverable. As discussed in Note 8, the Company has entered into a binding LOI to sell its uranium business. The proposed terms of the transaction are an indicator of impairment of the Company's long-lived uranium property, plant and equipment. For purposes of determining the amount of impairment, the Company has estimated that a loss in the amount of \$5.2 million will be recorded upon closing of the proposed transaction using the September 30, 2020 carrying values of the uranium assets and liabilities included in the transaction plus estimated costs to close the transaction.

As discussed in Note 8, at September 30, 2020, property, plant and equipment related to the Company's U.S. uranium business in Texas and New Mexico, net of the \$5.2 million impairment charge, have been reclassified to Held for Sale on the Condensed Consolidated Balance Sheet. Balances for prior year periods have also been reclassified. The \$5.2 million impairment charge is included in discontinued operations on the Condensed Consolidated Statement of Operations for the period ended September 30, 2020.

7. MINERAL PROPERTY EXPENDITURES

Mineral property expenditures by geographical location for the three and nine months ended September 30, 2020 and 2019 are as follows:

| | For the Three Months Ended September 30, | | | Ended Septembe | | | | |
|--|---|-------|-----|----------------|--------|----------|--------------|---------|
| | 2 | 2020 | | 2019 | | 2020 | | 2019 |
| | | | (t) | housand | s of c | dollars) | | |
| Kingsville Dome project, Texas | \$ | 291 | \$ | 203 | \$ | 735 | \$ | 592 |
| Rosita project, Texas | | 158 | | 237 | | 371 | | 455 |

| Other projects, Nevada | | _ | | _ | | _ | | |
| Total Nevada projects | | _ | | 126 | | _ | | 127 |
| | | | | | | | | |
| Sal Rica project, Utah | | _ | | 111 | | 1 | | 112 |
| Total Utah projects | | | | 111 | | 1 | | 112 |
| | | | | | | | | |
| Coosa project, Alabama | | 12 | | 12 | | 18 | | 77 |
| Bama project, Alabama | | _ | | _ | | _ | | _ |
| Total Alabama projects | | 12 | | 12 | | 18 | | 77 |
| | | | | | | | | |
| Total expense for the period | \$ | 764 | \$ | 832 | \$ | 1,942 | \$ | 2,258 |
| (Less) Mineral Property expenses attributable to Discontinued Operations | - | (752) | | (820) | | (1,924) | | (2,181) |
| Mineral Property expenses for Continued Operations | \$ | 12 | \$ | 12 | \$ | 18 | \$ | 77 |
| The state of the s | | | _ | | | | - | |

Included in the table above are mineral property expenses related to the Company's discontinued U.S. uranium and lithium operations (see Note 8). For the nine months ended September 30, 2020 and 2019, \$1.9 million was spent on mineral property expenses for the Company's uranium properties in Texas and New Mexico. Expenditures included landholding and maintenance, reclamation activities and standby costs. The Company also spent \$0.2 million during the third quarter of 2019 for claim maintenance, permits and fees on its lithium holdings in Utah and Nevada acquired in 2016. These costs are included in the net loss from discontinued operations on the Condensed Consolidated Statements of Operations.

8. DISCONTINUED OPERATIONS

In the third quarter of 2020, the Company made the strategic decision to focus most of its resources on its graphite business, agreeing to the sale of its uranium business as further discussed below, and discontinuing its investment in its lithium business. The Company's lithium business included mineral leases and water rights in Nevada and Utah. The Company elected not to renew the annual lease rentals on the mineral properties, which also voids the water rights.

On September 1, 2020, the Company signed a binding LOI to sell its U.S. uranium assets located in New Mexico and Texas to enCore Energy Corp., a corporation incorporated under the laws of British Columbia, Canada. The proposed transaction with enCore will be structured as a direct share purchase in which enCore acquires all issued and outstanding

equity securities of Westwater's wholly-owned uranium subsidiaries, URI Inc., Neutron Energy Inc., and Uranco, Inc., as well as related subsidiaries, HRI-Churchrock, Inc., Hydro Restoration Corp., Belt Line Resources, Inc., and Uranium Resources, Inc. (f/k/a URI Minerals, Inc.). Westwater expects to receive enCore shares valued at approximately \$2.0 million and retain royalties from future production from the New Mexico uranium properties. As part of the proposed transaction, enCore will receive \$3.0 million of cash collateral currently pledged against reclamation performance obligation bonds totaling approximately \$9.3 million upon the successful replacement of those performance obligation bonds. EnCore will also assume other liabilities related to the uranium properties including asset retirement obligations and outstanding royalties payable.

The sale is expected to close on or before December 31, 2020. The Company considers assets to be held for sale when management approves and commits to a formal plan to actively market the assets for sale at a price reasonable in relation to fair value, the asset is available for immediate sale in its present condition, an active program to locate a buyer and other actions required to complete the sale have been initiated, the sale of the asset is expected to be completed within one year and it is unlikely that significant changes will be made to the plan. Management has concluded that the sale of its U.S. uranium assets to enCore meets these criteria. As a result, the assets and liabilities in the disposal group are classified as held for sale for all periods presented on the Condensed Consolidated Balance Sheet as of September 30, 2020. This divestiture will allow the Company to devote most of its available resources to the development of high-performance battery graphite. This transaction represents a major strategic shift for Westwater and is expected to significantly affect current and future operations and financial results. Due to this shift, the Company's uranium segment has been classified as a discontinued operation and is reported separately from continuing operations on the Condensed Consolidated Statement of Operations for all periods presented.

The carrying amounts of the major classes of assets and liabilities related to the Company's discontinued uranium and lithium operations and classified as held for sale as of September 30, 2020 and December 31, 2019 were as follows:

| | September 30, 2020 | | De | cember 31, 2019 |
|--|-----------------------|-------------|----|--------------------|
| (thousands of dollars) | ф | 2.000 | ¢. | |
| Restricted Cash | \$ | 3,000 89 | \$ | 151 |
| Prepaid and other current assets | | | | 151 |
| Net property, plant and equipment | | 6,207 | | _ |
| Operating lease right-of-use assets | | 10 | _ | 151 |
| Current Assets Held for Sale | | 9,306 | | 151 |

| Notes payable - current | | 331 | | U |
| Other current liabilities | | 500 | | |
| Current Liabilities Held for Sale | | | | 1 701 |
| Current Liabilities Held for Sale | | 7,758 | | 1,701 |
| Asset retirement obligations, net of current | | _ | | 5,406 |
| Operating lease liability, net of current | | _ | | 8 |
| Other long-term liabilities | | | | 500 |
| Liabilities Held for Sale, non-current | | _ | | 5,914 |
| Total Liabilities Held for Sale | \$ | 7,758 | \$ | 7,615 |

The results of the Company's uranium and lithium business segments included in discontinued operations for the three and nine months ended September 30, 2020 and 2019 were as follows:

| | For the Three Septem | Months Ended iber 30, | For the Nine Months End September 30, | | |
|---|-------------------------|--------------------------|--|------------|--|
| (thousands of dollars) | 2020 | 2019 | 2020 | 2019 | |
| Mineral property expenses | \$ (752) | \$ (820) | \$ (1,924) | \$ (2,181) | |
| General and administrative expenses | (405) | (356) | (1,273) | (1,181) | |
| Accretion of asset retirement obligations | (32) | (197) | (170) | (353) | |
| Depreciation and amortization | (30) | (20) | (36) | (66) | |
| Impairment of uranium properties | (5,200) | _ | (5,200) | _ | |
| Gain on disposal of uranium assets | _ | 729 | _ | 729 | |
| Other income (expense) | 30 | _ | 30 | _ | |
| Net Loss from Discontinued Operations | \$ (6,389) | \$ (664) | \$ (8,573) | \$ (3,052) | |

Our cash flow information for 2020 and 2019 included the following activities related to discontinued operations:

| | For | For the Three Months Ended September 30, | | | For | Ended | | |
|---|-----|--|----|------|-----|-------|----|------|
| | | 2020 | | 2019 | | 2020 | | 2019 |
| (thousands of dollars) | | | | | | | | |
| Depreciation and amortization | \$ | 30 | \$ | 20 | \$ | 36 | \$ | 66 |
| Capital Expenditures | | - | | - | | (101) | | - |
| Accretion of asset retirement obligations | | 32 | | 197 | | 170 | | 353 |
| Impairment of uranium properties | | 5,200 | | - | | 5,200 | | - |

9. ASSET RETIREMENT OBLIGATIONS ("ARO")

The following table summarizes the changes in the reserve for future restoration and reclamation costs on the balance sheet:

| (thousands of dollars) | September 30, 2020 | | December 31, 2019 | |
|---|-----------------------|---------|----------------------|-------|
| Balance, beginning of period | \$ | 6,300 | \$ | 6,203 |
| Liabilities settled | | (501) | | (293) |
| Accretion expense | | 170 | | 390 |
| Balance, end of period | | 5,969 | | 6,300 |
| Less: ARO included in current liabilities held for sale | | (5,969) | | (894) |
| ARO included in liabilities held for sale, non-current | \$ | | \$ | 5,406 |

Asset retirement obligations primarily consist of estimated reclamation costs for the Company's ISR projects in South Texas. These obligations are fully secured by performance obligation bonds totaling approximately \$9.3 million and partially collateralized by \$3.8 million in restricted cash. In early September 2020, Westwater entered into an agreement with enCore Energy Corp to sell its U.S. uranium assets, including those properties in Texas that are subject to the restoration obligations above (see Note 8). These assets and related liabilities were classified as held for sale during the current period and are reported on the Company's Condensed Consolidated Balance Sheet. The sale is expected to close by year-end 2020, at which time all bonding obligations and nearly \$6.0 million in reclamation liabilities will be transferred to enCore. Until the transaction closes, the Company will continue to perform plugging and surface reclamation activities at its Rosita and Vasquez projects located in Duval County, Texas.

10. COMMON STOCK

Common Stock Issued, Net of Issuance Costs

2020 Purchase Agreement with Lincoln Park

On May 21, 2020, the Company entered into a Purchase Agreement with Lincoln Park, as amended on May 29, 2020 (the "2020 Purchase Agreement"), to place up to \$12.0 million in the aggregate of the Company's common stock on an ongoing basis when required by the Company over a term of 24 months. At the Annual Shareholders Meeting conducted on April 28, 2020, the Company received shareholder approval to sell up to 8.0 million shares of common stock under the 2020 Purchase Agreement. As an initial purchase on May 21, 2020, Lincoln Park bought \$250,000 worth of Common Stock of the Company at a price of \$1.2989 per share. The Company issued 156,250 shares of Common Stock to Lincoln Park as consideration for its commitment to purchase shares of Common Stock under the 2020 Purchase Agreement.

On May 21, 2020, the Company entered into a registration rights agreement with Lincoln Park pursuant to which the Company filed a registration statement on Form S-1 with the Securities and Exchange Commission, which was declared effective on June 26, 2020 relating to the resale of an initial tranche of 1.97 million shares subject to the 2020 Purchase Agreement. As of September 30, 2020, the Company had sold 1.8 shares of common stock for gross proceeds of

\$3.8 million, of which 1.6 million shares of common stock and gross proceeds of \$3.5 million was sold in the three months ended September 30, 2020. The Company filed a second registration statement on Form S-1 relating to the resale of 3.2 million shares which was declared effective on October 2, 2020, and sold 1.1 million shares for gross proceeds of \$8.2 million in October 2020. With the October 2020 sales, the \$12.0 million sales capacity of the 2020 Purchase Agreement has been reached.

2019 Purchase Agreement ("2019 Purchase Agreement") with Lincoln Park

On June 6, 2019, the Company entered into the 2019 Purchase Agreement with Lincoln Park to place up to \$10.0 million in the aggregate of the Company's common stock on an ongoing basis when required by the Company over a term of 24 months. On August 6, 2019 the Company conducted a Special Meeting of Shareholders whereby the Company received such approval to sell up to 3.2 million shares of common stock under the 2019 Purchase Agreement. Following effectiveness of a registration statement on Form S-1 relating to the resale of the shares subject to the 2019 Purchase Agreement on June 18, 2019, the Company began selling shares of its common stock to Lincoln Park under the terms of the 2019 Purchase Agreement. On September 11, 2019, October 28, 2019 and February 28, 2020 the Company filed subsequent registration statements on Form S-1, which were declared effective on September 20, 2019, November 7, 2019 and March 6, 2020, respectively, registering for resale additional shares under the 2019 Purchase Agreement. During the quarter ended June 30, 2020 the Company sold 623,236 shares of common stock for gross proceeds of \$593,356. The 2019 Purchase Agreement was terminated in May 2020 with historical sales of 3.2 million shares of common stock for gross proceeds of \$7.7 million.

Securities Purchase Agreement with Lincoln Park

On May 24, 2019, Westwater entered into a Securities Purchase Agreement, as amended by Amendment No. 1 thereto dated as of May 30, 2019, with Lincoln Park, pursuant to which the Company agreed to issue and sell to Lincoln Park, and Lincoln Park agreed to purchase from the Company (i) 104,294 shares of the Company's common stock and (ii) warrants to initially purchase an aggregate of up to 182,515 shares of common stock, at an exercise price of \$5.062 per share. On May 30, 2019, the Company issued and sold the common shares and the warrants to Lincoln Park and received aggregate gross proceeds before expenses of \$550,751. The warrants became exercisable on November 30, 2019 and were exercised on October 6, 2020.

ATM Offering Agreement with Cantor

On April 14, 2017, the Company entered into a Controlled Equity Offering Sales Agreement (the "ATM Offering Agreement") with Cantor acting as sales agent. Under the ATM Offering Agreement, the Company may from time to time sell shares of its common stock in "at-the-market" offerings. The Company pays Cantor a commission of up to 2.5% of the gross proceeds from the sale of any shares pursuant to the ATM Offering Agreement. As of September 30, 2020, the Company had sold 4.1 million shares of common stock for net proceeds of \$13.9 million under the ATM Offering Agreement, of which 2.1 million shares of common stock for net proceeds of \$3.7 million were sold in the three months ended September 30, 2020. During the month of October 2020, the Company registered and sold 7.3 million shares of common stock for net proceeds of \$42.0 million under the ATM Offering Agreement. As of November 12, 2020, the Company has no shares of common stock registered for sale under the ATM Offering Agreement.

Warrants

The following table summarizes warrants outstanding and changes for the three-month periods ending September 30, 2020 and 2019:

| | September 30, 2020 | <u>September 30, 2019</u> |
|---|---------------------------|---------------------------|
| | Number of Warrants | Number of Warrants |
| Warrants outstanding at beginning of period | 186,182 | 197,621 |
| Issued | _ | _ |
| Expired | _ | _ |
| Warrants outstanding at end of period | 186,182 | 197,621 |

On October 6, 2020, Lincoln Park provided notice of its exercise of 182,515 warrants. Lincoln Park elected the cashless exercise method to convert the warrants to shares of common stock. Based on the cashless exercise formula, the Company issued Lincoln Park 118,799 shares of common stock.

11. STOCK-BASED COMPENSATION

Stock-based compensation awards consist of stock options, restricted stock units and bonus shares issued under the Company's equity incentive plans which include: the 2013 Omnibus Incentive Plan (the "2013 Plan") and the Amended and Restated 2004 Directors' Stock Option and Restricted Stock Plan (the "2004 Directors' Plan"). Upon approval of the 2013 Plan by the Company's stockholders on June 4, 2013, the Company's authority to grant new awards under all plans other than the 2013 Plan was terminated. On July 18, 2017, April 18, 2019 and April 28, 2020, the Company's stockholders approved amendments to the 2013 Plan to increase the authorized number of shares of common stock available and reserved for issuance under the 2013 Plan by 20,000 shares, 66,000 and 350,000 shares, respectively and in 2017 reapproved the material terms of the performance goals under the plan. Under the 2013 Plan, the Company may grant awards of stock options, stock appreciation rights, restricted stock awards, restricted stock units ("RSUs"), unrestricted stock, dividend equivalent rights, performance shares and other performance-based awards, other equity-based awards and cash bonus awards to eligible persons. The maximum number of the Company's common stock that may be reserved for issuance under the 2013 Plan is currently 416,278 shares of common stock, plus unissued shares under the prior plans. Equity awards under the 2013 Plan are granted from time to time at the discretion of the Compensation Committee of the Board (the "Committee"), with vesting periods and other terms as determined by the Committee with a maximum term of 10 years. The 2013 Plan is administered by the Committee, which can delegate the administration to the Board, other Committees or to such other officers and employees of the Company as designated by the Committee and permitted by the 2013 Plan.

As of September 30, 2020, 58,586 shares were available for future issuances under the 2013 Plan. For the nine months ending September 30, 2020 and 2019, the Company recorded stock-based compensation expense of \$169,700 and \$255,000, respectively. Stock compensation expense is recorded in general and administrative expenses.

In addition to the plans above, upon closing of the Company's acquisition of Alabama Graphite in April 2018, the Company issued 50,168 replacement options and warrants to the option and warrant holders of Alabama Graphite. The number of replacement options and warrants shares was determined using the arrangement exchange rate of 0.0016. The exercise prices for the option and warrant shares were first converted for the exchange rate of 0.0016 and then converted to USD using the exchange rate on December 13, 2017 of 0.77809 (CAD to USD). The options and warrant shares were issued with the same terms and conditions as were applicable prior to the acquisition of Alabama Graphite. As of September 30, 2020, there were 2,840 replacement options outstanding but all replacement warrants have expired.

Stock Options

The following tables summarize stock options outstanding and changes for the three and nine-month periods ending September 30, 2020 and 2019:

| | Three mon | ths ended | Three months end | | |
|--|-----------|------------|------------------|----------|--|

Restricted Stock Units

Time-based and performance-based RSUs are valued using the closing share price of the Company's common stock on the date of grant. The final number of shares issued under performance-based RSUs is generally based on the Company's prior year performance as determined by the Compensation Committee of the Board of Directors at each vesting date, and the valuation of such awards assumes full satisfaction of all performance criteria.

The following tables summarizes RSU activity for the three and nine-month periods ended September 30, 2020 and 2019:

| | Septem | nths ended aber 30, 020 | Three months ender September 30, 2019 | | |
|--------------------------------------|----------------|--|---------------------------------------|--|--|
| | Number of RSUs | Weighted- Average Grant Date Fair Value | Number of RSUs | Weighted- Average Grant Date Fair Value | |
| Unvested RSUs at beginning of period | 211,497 | \$ 2.03 | 1,695 | \$ 70.00 | |
| Granted | _ | _ | _ | _ | |
| Forfeited | _ | _ | _ | | |
| Vested | | | | | |
| Unvested RSUs at end of period | 211,497 | \$ 2.03 | 1,695 | \$ 70.00 | |

| | Septem | ths ended ber 30, 20 | Nine months ended September 30, 2019 | | |
|--------------------------------------|----------------|--|--|--|--|
| | Number of RSUs | Weighted- Average Grant Date Fair Value | Number of RSUs | Weighted- Average Grant Date Fair Value | |
| Unvested RSUs at beginning of period | | \$ | 2,260 | \$ 70.00 | |
| Granted | 211,497 | 2.03 | | _ | |
| Forfeited | _ | _ | (565) | 70.00 | |
| Vested | | | | | |
| Unvested RSUs at end of period | 211,497 | \$ 2.03 | 1,695 | \$ 70.00 | |

12. EARNINGS PER SHARE

Basic and diluted loss per common share have been calculated based on the weighted-average shares outstanding during the period. Additionally, potentially dilutive shares of 559,576 were excluded from the calculation of earnings per share because the effect on the basic income per share would be anti-dilutive for the nine months ended September 30, 2020.

13. COMMITMENTS AND CONTINGENCIES

The Company's uranium recovery operations are subject to federal and state regulations for the protection of the environment, including water quality. Future closure and reclamation costs are provided for as each pound of uranium is produced on a unit-of-production basis. The Company reviews its reclamation obligations each year and determines the appropriate unit charge. The Company also evaluates the status of current environmental laws and their potential impact on their accrual for costs. The Company believes its operations are materially compliant with current environmental regulations.

At any given time, the Company may enter into negotiations to settle outstanding legal proceedings and any resulting accruals will be estimated based on the relevant facts and circumstances applicable at that time. We do not expect that such settlements will, individually or in the aggregate, have a material effect on our financial position, results of operations or cash flows.

14. LEASES

The Company's lease portfolio consists of operating leases for corporate offices, storage space and equipment. The leases have remaining lease terms of 3 months to 3 years, one of which includes an option to extend the corporate office lease for 3 years. Under our corporate office lease, we are required to reimburse the lessor each month for common use expenses such as maintenance and security services. Because these amounts are variable from year to year and not specifically set in the lease terms, they are not included in the measurement of the right-of-use asset and related lease liability, but rather expensed in the period incurred.

The Company is party to several leases that are for under one year in length. These include such leases as those for land used in exploration and mining activities, office equipment, machinery, office space, storage and other. The Company has elected the short-term lease exemptions allowed under the new leasing standards, whereby leases with initial terms of one year or less are not capitalized and instead expensed on a straight-line basis over the lease term. In addition, the Company holds numerous leases related to mineral exploration and production to which it has not applied the new leasing standard. Leases to explore or use minerals and similar nonregenerative resources are specifically excluded by ASC 842-10.

The right-of-use assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities are recognized at the commencement date of the lease based on the present value of lease payments over the lease term using a discount rate of 9.5%. This rate is the Company's current estimated incremental borrowing rate.

The components of lease expense are as follows:

| (thousands of dollars) | ne months ended ptember 30, 2020 | Nine months ended September 30, 2019 | | |
|-------------------------|---|---|-----|--|
| Operating Lease Cost | | | | |
| Continuing Operations | \$ 112 | \$ | 112 | |
| Discontinued Operations | 4 | | 4 | |
| | \$ 116 | \$ | 116 | |

Supplemental cash flow information related to the Company's operating leases is as follows:

| | | Nine months ended September 30, 2020 | | | months ded er 30, 2019 | |
|---|----|--|--------------|------------|------------------------------|--|
| | Co | ntinuing | Discontinued | Continuing | Discontinued | |
| (thousands of dollars) | Op | erations | Operations | Operations | Operations | |
| Cash paid for amounts included in lease liabilities: | | | | | | |
| • | | | | | | |
| Cash flows from operating leases | \$ | 115 \$ | 4 \$ | 113 | \$ 4 | |
| . • | | | | | | |
| Right-of-use assets obtained in exchange for lease obligations: | | | | | | |
| Operating leases | \$ | 383 \$ | 10 \$ | 498 | \$ 15 | |

Supplemental balance sheet information related to the Company's operating leases is as follows:

| | Septen 20 | iber 3)20 | 0, | December 31, 2019 | | | |
|---|------------------------|---------------|-----------------------|--------------------------|----|----------------------------|--|
| (thousands of dollars, except lease term and discount rate) | ontinuing perations | | continued erations | Continuing Operations | | Discontinued Operations | |
| Operating Leases | | | | | | | |
| Operating lease right-of-use assets | \$ 383 | \$ | 10 | \$ 470 | \$ | 14 | |
| Current portion of lease liabilities | 149 | | 10 | 147 | | 6 | |
| Operating lease liabilities – long term portion | 245 | | _ | 332 | | 8 | |
| Total operating lease liabilities | \$ 394 | \$ | 10 | \$ 479 | \$ | 14 | |

Weighted-average remaining lease term and discount rate for the Company's operating leases are as follows:

| | September 30, 2020 | September 30, 2019 |
|--|-----------------------|-----------------------|
| Weighted Average Remaining Lease Term (in years) | 3.0 | 4.0 |
| | | |
| Discount Rate | 9.5 % | 9.5 % |

Maturities of lease liabilities for the Company's operating leases are as follows:

| | | 30, | | |
|---------------------------------------|----|--------------------------|------------|----------------------------|
| Lease payments by year (In thousands) | | Continuing Operations | <u>)20</u> | Discontinued Operations |
| 2020 (remainder of year) | \$ | 38 | \$ | 2 |
| 2021 | | 155 | | 6 |
| 2022 | | 158 | | 4 |
| 2023 | | 92 | | _ |
| Total lease payments | | 443 | | 12 |
| Less imputed interest | | (49) | | (2) |
| Total Operating Lease Liability | \$ | 394 | \$ | 10 |

As of September 30, 2020, the Company has \$0.4 million in right-of-use assets and \$0.4 million in related lease liabilities (\$0.1 million of which is current). The most significant operating lease is for its corporate office in Centennial, Colorado, with \$0.4 million remaining in undiscounted cash payments through the end of the lease term in 2023. The total undiscounted cash payments remaining on operating leases through the end of their respective terms is \$0.4 million.

All but one operating lease are part of the company's Continuing Operations. In May 2017 the Company's wholly-owned subsidiary, URI, Inc. entered into an irrevocable 63 month equipment and servicing lease for a Toshiba copier used in its office in Kingsville, Texas. This lease is included in the disposal group that will be transferred to enCore in the sale of the Company's U.S. uranium properties expected to close by year-end 2020. At September 30, 2020, there was 22 months left on the lease with a right-of-use asset balance of approximately \$10,000 and a related lease liability for the same amount. These balances are included in assets held for sale and liabilities related to assets held for sale on the balance sheet. Monthly lease payments are included in the Income/Loss from Discontinued Operations.

15. GEOGRAPHIC AND SEGMENT INFORMATION

In addition to its corporate operations, the Company currently operates a graphite battery-materials reportable segment. During the quarter ended September 30, 2020, the Company made the strategic decision to sell its uranium business and discontinue its lithium business, both of which conducted exploration, standby operations and restoration and reclamation activities (see Note 8). As a result of entering into the LOI to sell the uranium business and the Company's decision to discontinue investment into its lithium business, the Company has reclassed all uranium and lithium business activities as discontinued operations.

The reportable segments are those operations whose operating results are reviewed by the Chief Executive Officer to make decisions about resources to be allocated to the segment and assess its performance provided those operations pass certain quantitative thresholds. Operations whose revenues, earnings or losses or assets exceed or are expected to exceed 10% of the total consolidated revenue, earnings or losses or assets are reportable segments. Information about current assets and liabilities of the segments has not been provided because the information is not used to assess performance.

The tables below provide a breakdown of the long-term assets by reportable segments as of September 30, 2020 and December 31, 2019:

| | | | Sept | ember 30, 2 | 2020 | | |
|---|-----------|------------|------|------------------------|----------------|--------------------|--|

16. NOTES PAYABLE

Loan under the Paycheck Protection Program (PPP)

On May 4, 2020, URI, Inc, a wholly owned subsidiary of Westwater, received loan proceeds in the amount of \$0.3 million under the Paycheck Protection Program ("PPP") in accordance with the terms of a promissory note executed in favor of Celtic Bank Corporation, a Salt Lake City based Small Business Administration ("SBA") Preferred Lender. The PPP, established as part of the Coronavirus Aid, Relief and Economic Security Act ("CARES Act"), provides for forgivable loans to qualifying businesses for amounts up to 2.5 times of the average monthly payroll expenses of the qualifying business. The loan and accrued interest are forgivable as long as the borrower uses the loan proceeds for eligible purposes, including payroll costs, rent and utilities. No more than 40% of the amount forgiven can be attributable to non-payroll costs. Any unforgiven portion of the PPP loan is payable over two years at an interest rate of 1%. The deadline to apply for loan forgiveness is the maturity date of the loan, which is April 30, 2022. As part of the Flexibility Act, the deferral period for loan payments increased from 6 months to 10 months after the end of the borrower's loan forgiveness covered period. Our 24-week covered period began when loan proceeds were received May 4, 2020 and ended October 19, 2020. Based on the changes to the deferral period, the Company has until August 19, 2021 to apply for loan forgiveness before payments on the principal, interest and fees are due.

The Company used the proceeds for funding its payroll and benefits costs for the restart of South Texas operations, purposes consistent with the PPP. The Company's South Texas operations were shut down and employees furloughed in March 2020 due to the severe downturn in the capital markets and uncertainty about when economic conditions would return to normal. While the Company currently believes that its use of the loan proceeds will meet the conditions for forgiveness of the loan and is in the process of preparing the SBA's forgiveness application, no assurance can be provided that the Company will obtain forgiveness of the loan, in whole or in part. At September 30, 2020, the loan proceeds are included in Current Liabilities Held for Sale on the Condensed Consolidated Balance Sheets. See also Note 8.

17. SUBSEQUENT EVENT – CAPITAL RAISE

During the month of October 2020, the Company sold 7.3 million shares of common stock for net proceeds of \$42.0 million pursuant to the ATM Offering Agreement with Cantor Fitzgerald & Co. These shares were sold pursuant to a prospectus supplement filed on October 8, 2020 pursuant to Rule 424(b)(5) as a takedown off the Company's shelf registration statement which had been declared effective by the Securities and Exchange Commission on April 13, 2020.

Also during the month of October 2020, the Company sold 1.1 million shares of common stock for net proceeds of \$8.2 million pursuant to the 2020 Purchase Agreement with Lincoln Park. These shares were sold pursuant to a Form S-1 registration statement filed pursuant to Rule 424(b)(3) and declared effective by the Securities and Exchange Commission on October 2, 2020.

The receipt of combined net proceeds in the amount of \$50.2 million from these financing facilities has resulted in a cash balance of approximately \$53.3 million at October 31, 2020. The significant treasury balance has mitigated the Company's capital risk through 2021 as the Company's budgeted pilot plant program for processing battery-grade graphite and the remaining budgeted product development costs are now fully funded.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management's discussion and analysis of the consolidated financial results and condition of Westwater for the three and nine months ended September 30, 2020 has been prepared based on information available to

us as of November 12, 2020. This discussion should be read in conjunction with the unaudited Condensed Consolidated Financial Statements and notes thereto included herewith and the audited Consolidated Financial Statements of WWR for the period ended December 31, 2019 and the related notes thereto filed with our Annual Report on Form 10-K, which have been prepared in accordance with U.S. GAAP. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including, but not limited to, those set forth elsewhere in this report. See "Cautionary Note Regarding Forward-Looking Statements."

INTRODUCTION

Westwater Resources, Inc. is a 40-year-old public company trading on the Nasdaq Capital Market focused on battery graphite development under the symbol "WWR." Originally incorporated in 1977 as Uranium Resources, Inc. to mine uranium in Texas, our company has been reborn as an energy materials developer. Westwater now is focused on battery-ready graphite materials after its acquisition of Alabama Graphite Corp. ("Alabama Graphite") and its Coosa Graphite Project ("Coosa Project") in Alabama in April 2018. Westwater recently discovered significant vanadium concentrations at the Coosa Project and has developed an exploration plan to further investigate the size and extent of those concentrations.

RECENT DEVELOPMENTS

Sale of Uranium Business

On September 1, 2020, Westwater signed a binding letter of intent ("LOI") to sell its U.S. uranium assets located in New Mexico and Texas to enCore Energy Corp. ("enCore"), a corporation incorporated under the laws of British Columbia, Canada, and a Toronto Venture Exchange-listed company (TSX.V:EU). Total compensation accruing to Westwater as part of the deal is expected to be in excess of \$2.0 million in enCore shares and royalties from future production from Westwater's New Mexico uranium properties. All remaining reclamation liabilities and bonding obligations for the Company's Texas uranium properties will be transferred to enCore at the time of sale, with the transaction expected to close on or before December 31, 2020. The transaction is subject to further due diligence, the execution of a definitive agreement, and other customary conditions., and there can be no assurance that the transaction will be completed. The transaction does not include Westwater's uranium interests in Turkey, which are subject to an ongoing international arbitration proceeding.

As a result of the estimated value of consideration received and carrying values of asset/liabilities transferred, the Company has recorded a \$5.2 million impairment charge. However, and importantly, the Company will continue its participation in the uranium sector as a significant shareholder of enCore and a royalty holder on the New Mexico uranium properties, while transferring responsibility for remaining reclamation to enCore. At the same time, the Company expects to save over \$4.0 million per year for the next several years in land payments, reclamation expenses and operating costs associated with the uranium properties, funds that can be invested in developing our graphite business. The successful closing of this transaction will complete the Company's strategic shift to battery graphite materials, and will allow the Company to devote its full focus and attention on advancing its battery-grade graphite product business.

Graphite Business Developments

Westwater's graphite business plan continues without pause. Westwater remains focused on the battery materials markets, the end markets for those products, and the role that can be played in supplying critical materials to serve them.

In June 2020, Westwater announced that independent testing of Westwater's ULTRA-PMGTM battery graphite material has shown outstanding resistivity values as a conductive additive. This milestone achievement is a critical step in developing Westwater's battery graphite business. ULTRA-PMGTM is one of the key products in the Coosa Project business plan being produced at laboratory-scale using proprietary processes that Westwater intends to utilize in the pilot program later this year. Successful performance testing demonstrates that Westwater can manufacture ULTRA-PMGTM as a premium-grade, conductive enhancement material for all types of batteries at larger scale.

In July 2020, Westwater announced that independent performance testing of Westwater's ULTRA-CSPGTM (Coated Spherical Purified Graphite "CSPG") material produced in a laboratory setting shows that it performs as well or better than benchmark commercially available natural flake and synthetic materials. ULTRA-CSPGTM is Westwater's anode material which is utilized in lithium ion batteries, which are used in the fast-growing electric vehicle market. Current estimates of the savings in CO2 emissions once our projected plant reaches full production range above 322,000 metric tons per year through the use of our ULTRA-CSPGTM U product in electric vehicles her in the United States.

In August 20, 2020, Westwater announced it had engaged Dorfner Anzaplan of Hirschau, Germany to execute its pilot plant that will advance the development of processes needed to purify graphite concentrates and to produce Westwater's battery grade products: ULTRA-PMGTM, ULTRA-CSPGTM and ULTRA-DEXDGTM. Dorfner Anzaplan is an internationally recognized and highly regarded organization that specializes in high-purity industrial and strategic metals businesses. Dorfner Anzaplan will employ state-of-the-art analytical methods and facilities and use innovative processing technologies to provide effective solutions tailored to Westwater's requirements. Planning and construction of an operational pilot plant is underway, and operation of the pilot plant is anticipated by the end of the year.

Westwater has developed proprietary processes for the production of battery grade graphite from non-Chinese sources that are designed to manufacture high performing products while ensuring a sustainable environmental footprint and low production costs. Test work on the products from these processes has been performed already in laboratories in Germany and the United States, and those results show that the performance of the Coosa Project's graphite is on par with or exceeds that of currently available battery products. The next step in Westwater's development process is the operation of a pilot plant that is designed to process approximately 30-tonnes of graphite concentrate and to produce more than ten metric tons of ULTRA-PMGTM, ULTRA-CSPGTM and ULTRA-DEXDGTM products, now scheduled for the fourth quarter of this year and the first quarter of 2021.

Westwater has filed a provisional patent application with the U.S. Patent and Trademark Office for its proprietary graphite purification technology. This proprietary process, which does not utilize hydrofluoric acid, is a purification methodology that has a more environmentally sustainable footprint than those processes currently used in China and elsewhere. Our purification process is an integral component in our pilot plant program, which we announced on August 8, 2020. Westwater also announced the filing of the Provisional Patent application on September 8, 2020.

The invention claimed in the provisional patent application relates to a method of obtaining highly purified graphite – having a graphitic carbon (Cg) grade of at least 99.95% – from a natural flake graphite concentrate sample. The method consists of three steps: (1) caustic roasting of the graphite concentrate sample; (2) acid leaching of the roasted sample; and (3) thermal treatment of the sample. Additional steps involving water washing and drying are included in some methods. The methods provided in the application may further include any combination of varying the weight percentage of the caustic solution, varying the temperature of and time for the caustic roasting, varying the temperature of and time for the acid leaching, and/or varying the temperature of, time for, and the atmosphere used in the thermal treatment.

Sales and Marketing Executive

Westwater hired Jay Wago as Vice President – Sales and Marketing on July 1, 2020. Mr. Wago is a proven sales leader, whose unique skills and experience will be instrumental in leading Westwater's sales and marketing efforts for our battery graphite materials business. The addition of Mr. Wago will help position Westwater to scale its marketing efforts to generate greater awareness of our American-made battery graphite materials to end-users throughout the world.

Graphite and Vanadium Listed as Critical Materials

On September 30, 2020, the President signed an Executive Order (the "Order") that addresses the threat to the U.S. domestic supply chain from reliance on critical minerals from foreign adversaries. The critical minerals referred to in the Order were previously identified by the Department of Interior in May 2018, and include both natural graphite and vanadium.

The President's declaration that the United States' heavy reliance on foreign nations for critical minerals is a national emergency, highlights the importance of the Westwater's plans to develop the Coosa Graphite Deposit in east-central Alabama. Westwater's business plan for the Coosa Graphite Project over the next two and a half years is to develop a U.S. domestic supply for natural graphite for use in all types of batteries in the United States. During recent exploration activities along the Roscoe Ridge at the mine site, Westwater has also discovered wide spread and significant levels of vanadium mineralization.

The U.S. is 100% dependent on imports for graphite, which is the primary anode material in lithium-ion batteries that power smartphones, laptops, electric vehicles, and stores power from intermittent renewable energy sources. Graphite, was specifically named as one of the critical minerals in which the U.S. is heavily dependent on China for its supply. Also, vanadium is an essential component in the manufacture of high-strength steel, is used as a catalyst in chemical manufacturing, and is also used as a component in the manufacturing of some ceramic, glass and pigment products. The U.S. imports virtually all of its industrial vanadium requirements from mines located in South Africa, China and Russia.

In the Order the President says, "a strong America cannot be dependent on imports from foreign adversaries for the critical minerals that are increasingly necessary to maintain our economic and military strength in the 21st century." The President said the heavy dependence on imports for critical minerals makes the U.S. vulnerable to adverse foreign government action, natural disaster, or other supply disruptions.

"I therefore determine that our nation's undue reliance on critical minerals, in processed or unprocessed form, from foreign adversaries constitutes an unusual and extraordinary threat, which has its source in substantial part outside the United States, to the national security, foreign policy, and economy of the United States. I hereby declare a national emergency to deal with that threat," President Trump penned in the Executive Order.

Further details on President Trump's critical mineral Executive Order can be read at: https://www.whitehouse.gov/presidential-actions/executive-order-addressing-threat-domestic-supply-chain-reliance-critical-minerals-foreign-adversaries

Westwater is uniquely positioned to benefit from the action the U.S. government is taking to ensure that the United States and its technology manufacturers can rely on a safe and secure source of graphite to drive our next generation of power and technology needs and possibly to meet needs for vanadium as well. The action by the President orders the Office of Science and Technology, the Secretary of Defense, the Secretary of Energy and the Secretary of the Interior to provide guidance to clarify which minerals and projects are eligible for government support, which can include loans or grants, under Title XVII of the Energy Policy Act of 2005. Furthermore, these agencies are directed along with the Secretary of Commerce, the Administrator for the Environmental Protection Agency and the Secretary of the Army, to use all available authorities to accelerate the issuance of permits in connection with expanding and protecting the U.S. domestic supply chain for minerals such as graphite.

Westwater is evaluating the Order and how best to approach the relevant agencies in the U.S. Government to emphasize the importance of battery graphite, its importance to the nation's security, and how the Coosa Graphite Project in Alabama fits into the enactment of critical minerals policy.

Global Pandemic and our Actions to Ensure Safety

On March 11, 2020, the World Health Organization designated COVID-19 as a global pandemic. The pandemic spread outside of China during the first quarter of 2020 and has impacted businesses throughout the world. In the U.S., many state and local governments have, based on local conditions, either recommended or mandated actions to slow the transmission of COVID-19. These measures range from limitations on crowd size, together with closures of bars and dinein restaurants, to mandatory orders for non-essential citizens to "shelter in place" or "stay at home" until further direction. Borders between many countries have been closed to contain the spread of COVID-19. Uncertainty with respect to the economic effects of the pandemic has introduced significant volatility in the financial markets.

This pandemic, and the resultant uncertain economic conditions it has created, could adversely affect our operations, major facilities, or employees' health. Westwater has the following priorities while managing business activities during this period of volatility and uncertainty:

- First, to ensure the health and safety of employees and the communities where they work.
- Second, to work with business partners to maintain the advanced graphite product development schedule.
- Third, to ensure adequate financial liquidity to support key operations and business activities.

Westwater's corporate business activities are largely unaffected at this time. Even though Westwater has reduced utilization of its offices, remote working arrangements were instituted to ensure that employees were able to work remotely using systems that already were in place. Westwater's continued focus on the health and safety of employees, the safety of operations, and the safety of the communities in which our employees live and work remains paramount. To that end, Westwater eliminated unnecessary travel, instituted health protocols for working together, and ensured that employees are permitted to take time off due to illness or the illness of those around them without penalty. As a result, our corporate business activities will continue on as before, without interruption.

During this quarter, our South Texas employees continued to perform normal reclamation and compliance work activities without incident, while utilizing protocols enacted by Westwater management earlier in the year.

To the extent that the COVID-19 pandemic continues or worsens, local governments or governmental agencies may impose additional restrictions. The result of COVID-19 and those restrictions could result in a number of adverse impacts to Westwater's business, including but not limited to additional disruption to the economy, additional work restrictions, and supply chains being interrupted, slowed, or rendered inoperable. As a result, it may be challenging to obtain and process raw materials to support business needs, and individuals could become ill, quarantined, or otherwise unable to work and/or travel due to health reasons or governmental restrictions. Also, governments may impose other laws, regulations or taxes which could adversely impact Westwater's business, financial condition or results of operations. The potential effects of COVID-19 could also impact Westwater in a number of other ways including, but not limited to, laws and regulations affecting business, the availability of future borrowings, the cost of borrowings, and potential impairment of the carrying value of long-lived tangible assets.

Payroll Protection Loan

On May 4, 2020, URI, Inc, a wholly owned subsidiary of Westwater, received loan proceeds in the amount of \$0.3 million under the Paycheck Protection Program in accordance with the terms of a promissory note executed in favor of Celtic Bank Corporation, a Salt Lake City based SBA Preferred Lender. The loan and accrued interest are forgivable as long as the loan proceeds are used for eligible purposes, including payroll and benefits costs, rent and utilities. Any unforgiven portion of the PPP loan is payable over two years at an interest rate of 1%. Payments of principal and interest are deferred until 10 months after the end of the 24-week covered period beginning on the day loan proceeds were received. URI's covered period ended on October 19, 2020 making the first payment of any unforgiven amount due August 19, 2021.

The Company used the loan proceeds for funding its payroll and benefits costs for its South Texas operations over 10 weeks during the months of May, June and July, purposes consistent with the PPP. The deadline to apply for loan forgiveness is the maturity date of the loan, April 30, 2022. Celtic Bank is currently developing an online forgiveness application for its borrowers in order to streamline the process. The Company plans to apply for loan forgiveness as soon as the lender makes the electronic application available. While the Company currently believes that its use of the loan proceeds meets the conditions for forgiveness of the loan, no assurance can be provided that the Company will obtain forgiveness of the Loan, in whole or in part.

Equity Financings

Significant Capital Raise in October Pursuant to Sales Agreement with Cantor Fitzgerald

Between September 9, 2020 and October 26, 2020, the Company sold 9.5 million shares of common stock for gross proceeds of \$46.9 million and net proceeds of \$45.7 million pursuant to its Controlled Equity Offering Sales Agreement ("ATM Offering Agreement") with Cantor Fitzgerald & Co. ("Cantor"). These shares were sold pursuant to two prospectus supplements filed pursuant to Rule 424(b)(5) as takedowns off the Company's base shelf registration statement which had been declared effective by the Securities and Exchange Commission on April 13, 2020.

The receipt of net proceeds in the amount of \$45.7 million from the ATM Offering Agreement combined with the receipt of net proceeds in the amount of \$11.7 million from sales of common stock to Lincoln Park, as noted below, has resulted in a cash balance of approximately \$53.3 million at October 31, 2020. The significant treasury balance has mitigated the Company's capital risk through 2021 as the Company's pilot plant program for processing battery-grade graphite and the remaining product development are now fully funded, and the Company will be able to make substantial initial investment in the commercial graphite plant in the latter half of 2021.

2020 Purchase Agreement ("2020 Purchase Agreement") with Lincoln Park Capital Fund, LLC ("Lincoln Park")

At the Annual Shareholders Meeting conducted on April 28, 2020, the Company received shareholder approval to sell up to 8.0 million shares of common stock under the 2020 Purchase Agreement. On May 21, 2020, the Company entered into the 2020 Purchase Agreement, as amended on May 29, 2020, with Lincoln Park to place up to \$12.0 million in the aggregate of the Company's common stock on an ongoing basis when required by the Company over a term of 24 months. As an initial purchase on May 21, 2020, Lincoln Park bought \$250,000 worth of Common Stock of the Company at a price of \$1.2989 per share. The Company issued 156,250 shares of Common Stock to Lincoln Park as consideration for its commitment to purchase shares of Common Stock under the 2020 Purchase Agreement.

The Company entered into a registration rights agreement with Lincoln Park pursuant to which the Company filed registration statements on Form S-1 with the SEC, which were declared effective on June 26, 2020 relating to the resale of an initial tranche of 1,971,000 shares and October 4, 2020 relating to the resale of 3,243,000 shares. During the period from July 8, 2020 to October 6, 2020, the Company sold 2.8 million shares of common stock for net proceeds of \$11.7 million.

Turkish Government Taking of Temrezli and Sefaatli Licenses and Westwater's Arbitration Filing and Proceedings

On January 27, 2020, Westwater filed a Claimant's Memorial (the "Memorial") in its arbitration proceeding against the Republic of Turkey ("Turkey"). The Memorial relates to Westwater's request for arbitration submitted to the International Centre for the Settlement of Investment Disputes ("ICSID") in December 2018 as a result of Turkey's unlawful actions against Westwater's investments at the Temrezli and Sefaatli uranium projects owned by Westwater's Turkish subsidiary Adur Madencilik Limited Sirketi.

The Memorial sets forth the basis for Westwater's claims under the treaty between the United States and Turkey concerning the reciprocal encouragement and protection of investments and international law generally, as well as the basis for the jurisdiction of the tribunal constituted on May 1, 2019 following ICSID's registration of Westwater's request for arbitration. The Memorial also establishes the reparations owed by Turkey for breach of its international obligations towards Westwater, consisting of no less than \$36.5 million, plus costs and post-award interest, as compensation for Westwater's resulting loss of its investment. Accompanying the Memorial is an expert report regarding the reparations owed to Westwater. In determining the amount of Westwater's loss, the expert report considered (i) the projected future cash flows from the expropriated projects, discounted to present value by a risk-adjusted discount rate, (ii) valuations from transactions for similar projects, and (iii) in the case of the Sefaatli project, the amounts invested in the project.

On March 11, 2020, Turkey filed a request to bifurcate the arbitration proceeding, and on March 30, 2020, Westwater filed a response in opposition to Turkey's request for bifurcation. On April 28, 2020, the arbitral tribunal denied Turkey's bifurcation request. On May 13, 2020, Turkey filed with the arbitral tribunal a request, which Westwater elected not to oppose, to extend the date on which their Counter-Memorial must be filed (and to change dates for subsequent

pleadings as well as document production and witness identification deadlines), which the tribunal approved on June 3, 2020. As a result of these decisions by the tribunal, Turkey filed its Counter-Memorial on September 14, 2020. The hearing on the substantive issues and damages is scheduled for September 13-17, 2021.

Additional information regarding the ICSID arbitration proceeding is presented in Part II, Item 1 below.

RESULTS OF OPERATIONS

Summary

Our consolidated net loss for the three months ended September 30, 2020 was \$9.8 million, or \$1.23 per share, as compared with a consolidated net loss of \$1.8 million, or \$0.95 per share for the same period in 2019. The \$8.0 million increase in our consolidated net loss from the respective prior period in 2019 was largely due to the \$6.4 million net loss from discontinued operations. During the third quarter of 2020, the Company entered into an agreement to sell its U.S. uranium assets to enCore in order to focus its efforts on the development of battery-grade graphite. Management believes this major strategic shift in its business model qualifies its uranium and lithium segments for treatment as discontinued operations. Accordingly, the assets and related liabilities of these segments were classified as held for sale. Upon initial held for sale recognition, the carrying value of the long-lived assets belonging to these segments was compared to the assets' fair value less costs to sell. Following this evaluation, it was determined that the \$11.4 million carrying value of the property, plant and equipment belonging to the uranium segment was greater than its estimated fair value less disposal costs. As a result, an impairment loss of \$5.2 million was recognized for the quarter and is included in the net loss from discontinued operations for the period. In addition to impairment, product development expenses related to our graphite projects has increased by \$1.6 million from the same period in 2019.

The factors identified above that led to the increased net loss for the third quarter of 2020 also contributed to the \$7.8 million increase in our consolidated net loss for the nine months ended September 30, 2020 from the respective prior year period. The Company's enhanced focus on developing its graphite business and dedication of resources to that pursuit is reflective of the \$1.9 million increase in product development spending year to date 2020 compared with 2019. Likewise, the \$5.5 million increase to net loss from discontinued operations for the three months ended September 30, 2020 is mostly comprised of the \$5.2 million write down on Texas uranium property, plant and equipment recognized in September, 2020.

Mineral Property Expenses

The following table details our mineral property expenses for the three and nine months ended September 30, 2020 and 2019:

| | For the Three months Ended September 30, | | | | Septembe | | | oer 30, | |
|--|--|-------|------|----------|----------|---------|----|---------|--|
| | 2020 | | 2019 | | | | | 2019 | |
| | | | (t | housands | of do | ollars) | | | |
| Restoration/Recovery expenses | | | | | | | | | |
| Kingsville Dome project | \$ | _ | \$ | _ | \$ | 3 | \$ | — | |
| Rosita project | | _ | | 7 | | _ | | | |
| Vasquez project | | 2 | | (8) | | 8 | | 69 | |
| Total restoration/recovery expenses | | 2 | | (1) | | 11 | | 69 | |
| | | | | | | | | | |
| Standby care and maintenance expenses | | | | | | | | | |
| Kingsville Dome project | | 249 | | 158 | | 583 | | 444 | |
| Rosita project | | 118 | | 97 | | 321 | | 298 | |
| Vasquez project | | 92 | | 93 | | 274 | | 236 | |
| Total standby care and maintenance expenses | | 459 | | 348 | | 1,178 | | 978 | |
| Exploration and evaluation costs | | | | | | | | | |
| Coosa project | | | | | | | | 58 | |
| Other projects | | | | 1 | | | | 3 | |
| Total exploration and evaluation costs | | _ | _ | 1 | _ | _ | _ | 61 | |
| | | | | | | | | | |
| Land maintenance and holding costs | | 303 | | 484 | | 753 | | 1,150 | |
| Total mineral property expenses | | 764 | | 832 | | 1,942 | | 2,258 | |
| | | | | | _ | | _ | | |
| (Less) Mineral Property expenses attributable to Discontinued Operations | Ф | (752) | ф | (820) | ф. | (1,924) | Ф | (2,181) | |
| Mineral Property expenses for Continued Operations | \$ | 12 | \$ | 12 | \$ | 18 | \$ | 77 | |

For the nine months ended September 30, 2020, mineral property expenses decreased by \$0.3 million from the corresponding period in 2019. The decrease was primarily due to the decision not to renew the leases for the lithium mineral properties in Nevada and Utah that were due in August 2020.

General and Administrative Expenses

Significant expenditures for general and administrative expenses for the three and nine months ended September 30, 2020 and 2019 were:

| | For the Three months ended September 30, | | | Fo | r the Nine Septem | | |
|--|--|-------|------|-----------|----------------------|---------|-------------|
| | | 2020 | 2019 | | | 2020 | 2019 |
| | | | (| thousands | of d | ollars) | |
| Stock compensation expense | \$ | 142 | \$ | 239 | \$ | 170 | \$ 255 |
| Salaries and payroll burden | | 811 | | 197 | | 2,344 | 1,619 |
| Legal, accounting, and public company expenses | | 558 | | 635 | | 1,681 | 2,105 |
| Insurance and bank fees | | 160 | | 171 | | 494 | 355 |
| Consulting and professional services | | 46 | | 1 | | 149 | 52 |
| Office expenses | | 128 | | 107 | | 329 | 235 |
| Sales and marketing | | 97 | | 6 | | 196 | 17 |
| Other expenses | | (1) | | 3 | | 16 | 126 |
| Total General and Administrative Expenses | \$ | 1,941 | \$ | 1,359 | \$ | 5,379 | \$ 4,764 |
| (Less) General and Administrative Expenses attributable to Discontinued Operations | | (405) | | (356) | | (1,273) | (1,181) |
| General and Administrative Expenses for Continued Operations | \$ | 1,536 | \$ | 1,003 | \$ | 4,106 | \$ 3,583 |
| | | | | | | | |

General and administrative expenses for the three and nine months ended September 30, 2020 increased by \$0.5 million and \$0.6 million from their respective periods in 2019. The increase was due primarily to a reversal of executive bonuses of approximately \$0.4 million in 2019.

Arbitration Costs

The majority of cost in the third quarter associated with the Request for Arbitration against the Republic of Turkey was related to review and evaluation of the Republic of Turkey's Counter-Memorial which was filed with ICSID on September 14, 2020. During the nine months ended September 30, 2020, the Company incurred arbitration related legal and expert consulting costs of \$0.9 million, a \$0.3 million increase over the \$0.6 million of costs incurred during the same period in 2019. The increase was due to the significant activity in January 2020 leading up to and following the filing of the Company's Memorial with ICSID on January 27, 2020 and costs in September 2020 to review and evaluate the Republic of Turkey's Counter-Memorial. For further reference, see discussion in the Recent Developments section of this Part I and below at Part II, Item 1.

Other Income and Expenses

For the nine months ended September 30, 2020, the \$0.4 million increase in other income compared to the nine months ended September 30, 2019 was primarily due to the \$0.7 million loss on the sale of securities comprised of Laramide shares and warrants in the first half of 2019 offset by \$0.3 million of interest income from the Laramide promissory note. No such losses or interest income was recorded over the same period in 2020.

FINANCIAL POSITION

Operating Activities

Net cash used in operating activities was \$10.1 million for the nine months ended September 30, 2020, as compared with \$7.2 million for the same period in 2019. The \$2.9 million increase in cash used in operating activities was primarily due to increased graphite product development expenses, general and administrative expenses and arbitration costs in 2020 compared to 2019.

Investing Activities

Net cash used for investing activities for the nine months ended September 30, 2020 was \$0.1 million for the purchase of equipment, as compared with \$3.8 million of cash provided by investing activities for the nine months ended September 30, 2019. For the 2019 period, the Company received installment payments on the Laramide note in the amount of \$0.8 million in cash. Additionally, the Company received net proceeds of \$0.5 million from the sale of Laramide securities and \$2.5 million from Uranium Royalty (USA) Corp. and Uranium Royalty Corp. (together "URC") in accordance with the terms of the Asset Purchase Agreement signed on March 5, 2019. See Note 3 to our unaudited Condensed Consolidated Financial Statements included herewith for more information on the URC transaction and the Laramide note and securities.

Financing Activities

Net cash provided by financing activities was \$13.9 million for the nine months ended September 30, 2020, resulting primarily from the proceeds of sales of common stock through the Company's ATM Offering Agreement with Cantor Fitzgerald and the Company's 2019 Purchase Agreement and 2020 Purchase Agreement with Lincoln Park. Additionally, \$0.3 million was received from the PPP loan in May 2020. Net cash provided by financing activities for the same period in 2019 was \$2.6 million. The \$11.3 million increase was due to greater shelf registration capacity with which to offer registered shares under the Company's financing agreement with Cantor and increased sales activity under the Company's financing agreements with Lincoln Park in the first nine months of 2020 compared to the same period in 2019.

LIQUIDITY AND CAPITAL RESOURCES

The Company last recorded revenues from operations in 2009. Since 2009, the Company has relied on equity financings, debt financings and asset sales to fund its operations. The Company expects to rely on debt and equity financing to fund its operations into the near future. The Company will also continue its cost reduction initiatives to identify ways to reduce its cash expenditures.

In 2016, the Company began to incorporate energy-related materials into its business plan. Between 2016 and 2020 the Company obtained mineral leases in Nevada and Utah and evaluated a green-fields exploration program for lithium. In 2018, the Company acquired Alabama Graphite Corp. and its Coosa Graphite Project for the purpose of developing the only commercial sized graphite mineral deposit in the contiguous United States and production of advanced graphite products for use in batteries. In the third quarter of 2020, as further discussed below and as further discussed in Note 8, the Company made the strategic decision to focus most of its resources on its graphite business, agreeing to the sale of its uranium business and discontinuing its investment in its lithium mineral properties.

As of September 30, 2020, execution of the business plan for development of the Coosa Graphite Project was underway, with the commissioning of pilot plants for processing flake graphite into battery grade graphite products. The start-up of operations for those plants is expected to commence before the end of 2020 or shortly thereafter. The Company expects the pilot plant phase to last into mid-2021. The Company will use the data generated from the pilot plant operations to inform the requirements and specifications for building a commercial sized graphite processing facility. Pursuant to the Company's Preliminary Economic Assessment of the Coosa Graphite Project as modified, financing required for the estimated capital expenditures to construct the commercial plant is approximately \$120 million. Subject to financing, the Company expects the construction phase for the commercial plant to begin in the second half of 2021 and be completed in mid-2022. The Company expects to begin generating revenues from sales of advanced graphite products from the Coosa Graphite Project in 2023.

While executing on its graphite business plan, the Company has continued to fulfill its obligation to restore and reclaim its legacy uranium properties in South Texas. These activities have resulted in expenditures of approximately \$3.5 million per year, and these reclamation activities are expected to continue for an additional 4-5 years before completion. The Company has provided \$9.3 million in performance obligation bonds to the Texas Commission for Environment Quality as financial assurance related to its permits and licenses in South Texas, and has a recorded liability of approximately \$6.0 million for asset retirement obligations on its balance sheet (see Note 9). In addition to its South Texas uranium operations, the Company has spent about \$0.5 million to \$1.0 million annually to maintain its uranium mineral property holdings in New Mexico.

In furtherance of the Company's strategic shift to graphite battery materials, on September 1, 2020 the Company entered into a Letter of Intent ("LOI") to sell its U.S. uranium business, including its U.S. uranium exploration assets in New Mexico and idled production assets in Texas to enCore Energy Corp. ("enCore") (see Note 8). The pending sale includes the elimination of the \$9.3 million bonding liability, the elimination of the \$6.0 million in asset retirement obligations, and the elimination of more than \$4.0 million in annual expenditures related to reclamation and compliance costs at the Company's Kingsville, Vasquez, and Rosita sites in South Texas and its New Mexico land holding costs. The Company anticipates that it will receive approximately US\$2.0 million of enCore common stock and retain royalty interests on the New Mexico uranium properties as consideration for the sale. This transaction is expected to close on or before December 31, 2020. The Company will retain its uranium interests in Turkey, which are subject to ongoing international arbitration proceeding. The Company's strategic shift to focus solely on its graphite business also resulted in its decision not to renew its lithium mineral leases in Nevada and Utah when the annual rentals of approximately \$0.2 million came due in late August 2020.

At September 30, 2020 the Company's cash balances were \$5.5 million. During the month of October 2020, the Company sold 8.5 million shares of common stock for net proceeds of \$50.2 million pursuant to its Controlled Equity Offering SM Sales Agreement with Cantor Fitzgerald & Co. ("Cantor") and its Purchase Agreement with Lincoln Park Capital LLC ("Lincoln Park") (see Note 17). The funding provided by these financing facilities has resulted in a cash balance of approximately \$53.3 million at October 31, 2020. Management believes the significant treasury balance has mitigated the Company's capital risk through 2021 as the Company's 2021 non-discretionary budget, budgeted graphite pilot plant program and the remaining budgeted product development initiatives are now fully funded. The Company is

pursuing project financing to support primary funding of the capital expenditures for construction of the commercial plant set to occur in the second half of 2021.

Management believes the Company's current cash balance is sufficient to fund its planned non-discretionary expenditures through 2022. In addition to pursuing other project financing, the Company is evaluating the renewal of the Cantor and Lincoln Park financing facilities for use in funding any required contributions by the Company to support project financing for construction of the commercial graphite facility. While the Company has been successful in the past in raising funds through equity and debt financings as well as through the sale of non-core assets, no assurance can be given that additional financing will be available to it in amounts sufficient to meet its needs, or on terms acceptable to the Company. Stock price volatility and uncertain economic conditions caused by the COVID-19 pandemic could significantly impact the Company's ability to raise funds through equity financing. In the event funds are not available for project financing to complete construction of the commercial facility in 2022, the Company will be able to fund its non-discretionary expenditures, however, the Company may be required to change our planned business strategies.

OFF-BALANCE SHEET ARRANGEMENTS

We have no off-balance sheet arrangements.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

With the exception of historical matters, the matters discussed in this report are forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from projections or estimates contained herein. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Such forward-looking statements include, without limitation, statements regarding the adequacy of funding, liquidity, the timing or occurrence of any future drilling or production from the Company's properties, the ability of the Company to acquire additional properties or partner with other companies, the construction of pilot plant facilities and construction of commercial production facilities, the realization of expected benefits from recent business combinations and the Company's anticipated cash burn rate and capital requirements. Words such as "may," "could," "should," "would," "believe," "estimate," "expect," "anticipate," "plan," "forecast," "potential," "intend," "continue," "project" and variations of these words, comparable words and similar expressions generally indicate forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements. Actual results may differ materially from those expressed or implied by these forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements include, among others:

- the spot price and long-term contract price of graphite and vanadium;
- the ability of the Company to enter into and successfully close acquisitions, dispositions or other material transactions;
- the Company's ability to raise capital in the future;
- government regulation of the mining industry in the United States and a new federal administration;
- risks associated with our operations and the operations of our partners, including the impact of COVID-19;
- our expectations regarding the use of funds from the Company's PPP Loan and the potential for loan forgiveness under the terms of the PPP Loan;
- operating conditions at our projects;
- the world-wide supply and demand of graphite and vanadium;

- weather conditions;
- unanticipated geological, processing, regulatory and legal or other problems we may encounter;
- the results of our exploration activities, and the possibility that future exploration results may be materially less promising than initial exploration results;
- any graphite or vanadium discoveries not being in high enough concentration to make it economic to extract the metals:
- currently pending or new litigation or arbitration;
- our ability to continue to satisfy the listing requirements of the Nasdaq Capital Market;
- our ability to maintain and timely receive mining and other permits from regulatory agencies.

as well as other factors described elsewhere in this Quarterly Report on Form 10-Q, our 2019 Annual Report on Form 10-K and the other reports we file with the SEC. Most of these factors are beyond our ability to predict or control. Future events and actual results could differ materially from those set forth herein, contemplated by or underlying the forward-looking statements. Forward-looking statements speak only as of the date on which they are made. We disclaim any obligation to update any forward-looking statements made herein, except as required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, we are not required to provide this information in our Quarterly Reports.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its filings with the Securities and Exchange Commission ("SEC") is recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management has recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply judgment in evaluating the Company's controls and procedures.

During the fiscal period covered by this report, the Company's management, with the participation of the Chief Executive Officer and Chief Financial Officer of the Company, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of September 30, 2020.

Changes in Internal Controls

There were no changes in our internal control over financial reporting during the quarter ended September 30, 2020 that materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Information regarding reportable legal proceedings is contained in Part I, Item 3, "Legal Proceedings," in our Annual Report on Form 10-K for the year ended December 31, 2019. There have been no material changes to the legal proceedings previously disclosed in the Annual Report on Form 10-K, other than as set forth below.

On December 13, 2018, Westwater filed a Request for Arbitration against the Republic of Turkey before the International Centre for the Settlement of Investment Disputes ("ICSID"), pursuant to the Treaty between the United States of America and the Republic of Turkey concerning the Reciprocal Encouragement and Protection of Investments. The Request for Arbitration was filed as a result of the Republic of Turkey's unlawful actions against the Company's licenses for the Temrezli and Sefaatli uranium projects owned by Westwater's Turkish subsidiary Adur Madencilik Limited Sirketi ("Adur"). Specifically, in June 2018, the Turkish government cancelled all of Adur's exploration and operating licenses with retroactive effect, rendering Westwater's investment in Adur effectively worthless. While the Turkish authorities had variously issued, renewed and overseen these licenses for more than a decade, in June 2018 they asserted that those licenses were issued by mistake and that the Turkish government has a governmental monopoly over all uranium mining activities in Turkey, in violation of Westwater's rights under both Turkish and international law. Westwater reached out on numerous occasions to the Turkish government to resolve this dispute amicably, to reinstate the licenses and to remedy Turkey's unlawful actions, but to no avail.

As a result, on December 13, 2018, Westwater filed before ICSID its arbitration request against the Republic of Turkey. On December 21, 2018, ICSID registered Westwater's Request for Arbitration. On May 1, 2019, the three-member ICSID Panel for the arbitration was established – one of the panel members was selected by Westwater, another was selected by Turkey, and the third panel member (serving as the Chair) was selected by the two party-appointed arbitrators. On September 9, 2019, the ICSID Panel issued Procedural Order #1, which places the locale for the proceeding in Washington, DC, and sets numerous dates for both parties to make various filings.

On January 27, 2020, Westwater filed its Memorial, which is a document that sets out Westwater's case. On March 11, 2020, Turkey filed a request to bifurcate the arbitration proceeding, and on March 30, 2020, Westwater filed a response in opposition to Turkey's request for bifurcation. In Procedural Order #2 issued on April 28, 2020, the arbitral tribunal denied Turkey's bifurcation request. On May 13, 2020, Turkey filed with the arbitral tribunal a request which Westwater elected not to oppose, to extend the date on which their Counter-Memorial must be filed (and to change dates for subsequent pleadings as well as document production and witness identification deadlines), which the arbitral tribunal approved on June 3, 2020. As a result of these decisions by the tribunal, Turkey filed its Counter-Memorial on September 14, 2020, and the hearing on the substantive issues and damages is scheduled for September 13-17, 2021.

ITEM 1A. RISK FACTORS.

There have been no material changes from those risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2019, as updated by the risk factor set forth in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2020, each of which is incorporated herein by reference.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

None

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable. **ITEM 5. OTHER INFORMATION.**

None.

ITEM 6. EXHIBITS.
