SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended March 31, 2023

Or

Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from to

Commission file number 001-33404

WESTWATER RESOURCES, INC.

(Exact Name of Registrant as Specified in Its Charter)

Delaware

(State of Incorporation)

75-2212772

(I.R.S. Employer Identification No.)

6950 S. Potomac Street, Suite 300, Centennial, Colorado 80112

(Address of Principal Executive Offices, Including Zip Code)

(303) 531-0516

(Registrant's Telephone Number, Including Area Code)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of Each Class</u>	<u>Trading Symbol(s)</u>	<u>Name of Each Exchange on Which Registered</u>
Common Stock, \$0.001 par value	WWR	NYSE American

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

<u>Title of Each Class of Common Stock</u>	<u>Number of Shares Outstanding</u>
Common Stock, \$0.001 par value	50,899,759 as of May 10, 2023

DEFINITIONS

When used in this Form 10-Q, the following terms have the meaning indicated.

Term	Meaning
AGP	Alabama Graphite Products, LLC, an Alabama limited liability company and wholly owned subsidiary of Westwater Resources.
Alabama Graphite	Alabama Graphite Company, Inc., an Alabama corporation and wholly owned subsidiary of Westwater Resources.
Annual Report	Westwater Resources, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2022.
ASC	FASB Accounting Standards Codification.
ASU	FASB Accounting Standards Update.
ATM Offering Agreement	Controlled Equity Offering Sale Agreement between Westwater Resources and Cantor Fitzgerald & Co. dated April 14, 2017.
Cantor	Cantor Fitzgerald & Co.
Coosa Graphite Deposit	The Company's graphite mineral deposit located near Rockford, Alabama.
EU Critical Raw Minerals List	The list of raw materials that are crucial to the economy of the European Union published by the European Commission.
FASB	The Financial Accounting Standards Board.
graphite	A naturally occurring carbon material with electrical properties that enhance the performance of electrical storage batteries, listed on the U.S. Critical Minerals List and the EU Critical Raw Materials List.
gross acres	Total acreage of land under which we have mineral rights. May include unleased fractional ownership.
Inducement Plan	The Employment Inducement Incentive Award Plan. The Inducement Plan provides for the grant of equity-based awards, including restricted stock units, restricted stock, performance shares and performance units, and its terms are substantially similar to the Company's 2013 Omnibus Incentive Plan.
Kellyton Graphite Plant	The Company's planned battery-grade graphite processing facility near Kellyton, Alabama.
Lincoln Park	Lincoln Park Capital Fund, LLC.
U.S. Critical Minerals List	The list of critical minerals that are crucial to the economy of the United States of America published by the Department of the Interior.
vanadium	A rare-earth metal used as a strengthening alloy in steelmaking, and in certain types of batteries, listed on the U.S. Critical Minerals List.
Westwater Resources	Westwater Resources, Inc.
2020 Lincoln Park PA	Purchase Agreement dated as of December 4, 2020 between Westwater Resources and Lincoln Park Capital Fund, LLC.

USE OF NAMES

In this Quarterly Report on Form 10-Q, unless the context otherwise requires, the terms "we," "us," "our," "WWR," "Westwater," "Westwater Resources," or the "Company" refer to Westwater Resources, Inc. and its subsidiaries.

[Table of Contents](#)

CURRENCY

The accounts of the Company are maintained in U.S. dollars. All dollar amounts referenced in this Quarterly Report on Form 10-Q and the consolidated financial statements are stated in U.S. dollars.

WESTWATER RESOURCES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements (the “Interim Financial Statements”) for Westwater Resources, Inc. have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The accompanying Interim Financial Statements should be read in conjunction with the audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2022. The Interim Financial Statements are unaudited. In the opinion of management, all adjustments (which are of a normal, recurring nature) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2023 are not necessarily indicative of the results that may be expected for any other period including the full year ending December 31, 2023.

Reclassification

Certain amounts of non-cash lease expense within the operating section of the Condensed Consolidated Statement of Cash Flows as of March 31, 2022 have been reclassified to conform to the March 31, 2023 presentation. These reclassifications did not result in any changes in the net cash used in operating activities, net loss or changes in stockholders’ equity for the period ending March 31, 2022.

Significant Accounting Policies

Our significant accounting policies are detailed in *Note 1, Summary of Significant Accounting Policies*, in the Notes to Consolidated Financial Statements within our Annual Report.

Recently Adopted Accounting Pronouncements

In November 2021, the Financial Accounting Standards Board (“FASB”) issued ASU 2021-10, “Government Assistance (Topic 832): Disclosures by Business Entities about Government Assistance” (“ASU 2021-10”). ASU 2021-10 increases the transparency regarding government assistance to companies, including the disclosure of (1) the types of assistance, (2) an entity’s accounting for the assistance, and (3) the effect of the assistance on an entity’s financial statements. ASU 2021-10 became effective for annual periods beginning after December 15, 2021. The adoption of ASU 2021-10 did not result in a material impact to our Interim Financial Statements.

In June 2016, the FASB issued ASU 2016-13, “Measurement of Credit Losses on Financial Instruments.” ASU 2016-13 will change how companies account for credit losses for most financial assets and certain other instruments. For trade receivables, loans and held-to-maturity debt securities, companies will be required to estimate lifetime expected credit losses and recognize an allowance against the related instruments. For available for sale debt securities, companies will be required to recognize an allowance for credit losses rather than reducing the carrying value of the asset. The adoption of this update, if applicable, will result in earlier recognition of losses and impairments. ASU 2016-13 will be effective for interim and annual periods beginning after December 15, 2022. The adoption of ASU 2016-13 did not result in a material impact to our Interim Financial Statements.

In November 2018, the FASB issued ASU 2018-19, “Codification Improvements to ASC 326, Financial Instruments – Credit Losses”, which clarifies that receivables arising from operating leases are not within the scope of Subtopic 326-20. Instead, impairment of receivables arising from operating leases should be accounted for in accordance with ASC 842, Leases. ASU 2018-19 will be effective for interim and annual periods beginning after December 15, 2022. The adoption of ASU 2018-19 did not result in a material impact to our Interim Financial Statements.

2. LIQUIDITY AND GOING CONCERN

The Interim Financial Statements of the Company have been prepared on a “going concern” basis, which means that the continuation of the Company is presumed even though events and conditions exist that, when considered in the aggregate, raise substantial doubt about the Company’s ability to continue as a going concern because it is possible that the Company will be required to adversely change its current business plan or may be unable to meet its obligations as they become due within one year after the date that these Interim Financial Statements were issued.

Management considered the following events and conditions in its going concern analysis. The Company last recorded revenues from operations in 2009. Since 2009, the Company has relied on equity financings, debt financings and asset sales to fund its operations. During the quarter ended March 31, 2023, and through the date that these Interim Financial Statements were issued, the Company continued construction activities related to the Kellyton Graphite Plant. The Company’s construction related contracts include termination provisions at the Company’s election that do not obligate the Company to make payments beyond what is incurred by the third-party service provider through the date of such termination. In its going concern analysis, the Company considered the construction activity and related costs through the date that the Interim Financial Statements were issued, and the Company’s planned non-discretionary expenditures through May 31, 2024, which, in the aggregate, exceed the cash on hand as of the date of these Interim Financial Statements, excluding external funding opportunities and the Company’s current equity facilities.

On March 31, 2023, the Company’s cash balance was approximately \$39.7 million. During the three months ended March 31, 2023, the Company sold 1.5 million shares of common stock for net proceeds of \$1.5 million pursuant to the ATM Offering Agreement (see Note 4).

The Company has historically, and expects to continue to rely on debt and equity financing to fund its operations and business plan until operations commence at the Kellyton Graphite Plant. Along with evaluating the continued use of the ATM Offering Agreement and the 2020 Lincoln Park PA, the Company is considering other forms of project financing to fund the construction of the Kellyton Graphite Plant. The alternative sources of project financing could include, but are not limited to, project debt, convertible debt, or pursuing a partnership or joint venture. If funds are not available to fund the construction of Phase I of the Kellyton Graphite Plant under the Company’s financing facilities or through alternative financing sources, the Company may be required to reduce or severely curtail operations, change its planned business development strategies related to the Coosa Graphite Deposit and Phase I of the Kellyton Graphite Plant, alter the construction and commissioning timeline of Phase I of the Kellyton Graphite Plant, or put the construction of Phase I on hold until additional funding is obtained. If the Company is required to abandon construction and development or alter its intended long-term plans related to the Kellyton Graphite Plant, the Company could be required to evaluate the recoverability of its long-lived assets.

While the Company has utilized its equity facilities to advance its business plan and has been successful in the past raising funds through equity and debt financings as well as through the sale of non-core assets, no assurance can be given that additional financing will be available in amounts sufficient to meet its needs, or on terms acceptable to the Company. Recent declines in the equity and debt capital markets, rising interest rates, inflation and generally uncertain economic conditions could significantly impact the Company’s ability to access the necessary funding to advance its business plan. Further, on March 13, 2023, the Company filed a prospectus supplement to its existing shelf registration statement on Form S-3 (the “Registration Statement”) and as a result, the Company’s access to the available capacity under the Registration Statement, is now subject to General Instruction I.B.6 of Form S-3, which limits the amount that the Company may sell under the Registration Statement. After giving effect to these limitations and the current public float of our common stock, and after giving effect to the terms of the ATM Offering Agreement, we currently may offer and sell shares of our common stock having an aggregate offering price of up to \$19,250,000 under the ATM Offering Agreement, which amount is in addition to the shares of common stock that we have sold to date in accordance with the ATM Offering Agreement under the Registration Statement and prospectus supplements thereto. If our public float increases such that we may sell additional amounts under the ATM Offering Agreement and the Registration Statement, we will file another prospectus supplement prior to making additional sales.

When considering the above events and conditions in the aggregate, the Company believes such events and conditions raise substantial doubt about its ability to continue as a going concern within one year after the date that these Interim Financial Statements were issued.

3. PROPERTY, PLANT AND EQUIPMENT

(thousands of dollars)	Net Book Value of Property Plant and Equipment at March 31, 2023		
	Alabama	Corporate	Total
Mineral rights and properties	\$ 8,972	\$ —	\$ 8,972
Other property, plant and equipment	5,711	22	5,733
Construction in progress	101,328	—	101,328
Total	\$ 116,011	\$ 22	\$ 116,033

(thousands of dollars)	Net Book Value of Property Plant and Equipment at December 31, 2022		
	Alabama	Corporate	Total
Mineral rights and properties	\$ 8,972	\$ —	\$ 8,972
Other property, plant and equipment	5,745	24	5,769
Construction in progress	75,337	—	75,337
Total	\$ 90,054	\$ 24	\$ 90,078

Construction in Progress

Construction in progress represents assets that are not ready for service or are in the construction stage. Assets are depreciated based on the estimated useful life of the asset once it is placed in service.

Impairment of Property, Plant and Equipment

The Company reviews and evaluates its long-lived assets for impairment on an annual basis or more frequently when events or changes in circumstances indicate that the related carrying amounts may not be recoverable. For the three months ended March 31, 2023 no events or changes in circumstance are believed to have impacted recoverability of the Company's long-lived assets. Accordingly, it was determined that no interim impairment was necessary. As discussed in *Note 2*, if the Company is required to abandon construction and development or alter its intended long-term plans related to the Kellyton Graphite Plant, the Company could be required to evaluate the recoverability of its long-lived assets.

4. COMMON STOCK

Common Stock Issued, Net of Issuance Costs

December 2020 Purchase Agreement with Lincoln Park Capital Fund, LLC ("Lincoln Park")

On December 4, 2020, the Company entered into the 2020 Lincoln Park PA with Lincoln Park to place up to either \$100.0 million or 16.0 million shares in the aggregate of the Company's common stock on an ongoing basis over a term of 36 months. The Company controls the timing and amount of any sales to Lincoln Park, and Lincoln Park is obligated to make purchases in accordance with the 2020 Lincoln Park PA. Any common stock that is sold to Lincoln Park will occur at a purchase price that is based on an agreed upon fixed discount to the Company's prevailing market prices at the time of each sale and with no upper limits on the price Lincoln Park may pay to purchase common stock. The Lincoln Park PA may be terminated by the Company at any time, in its sole discretion, without any additional cost or penalty.

The 2020 Lincoln Park PA specifically provides that the Company may not issue or sell any shares of its common stock under the agreement if such issuance or sale would breach any applicable rules of the NYSE American Stock Exchange ("NYSE American"). In particular, NYSE American General Rule 713(a) provides that the Company may not issue or sell more than 19.99% of the number of shares of the Company's common stock that were outstanding immediately prior to the execution of the 2020 Lincoln Park PA unless (i) shareholder approval is obtained or (ii) the average price of all applicable sales of common stock to Lincoln Park under the 2020 Lincoln Park PA, equals or exceeds \$6.15. The

[Table of Contents](#)

Company held its 2021 Annual Shareholders Meeting on May 21, 2021 and obtained shareholder approval for the issuance of more than 19.99% of the shares of the Company's common stock outstanding under the 2020 Lincoln Park PA.

Lincoln Park has no right to require the Company to sell any shares of common stock to Lincoln Park, but Lincoln Park is obligated to make purchases as the Company directs, subject to certain conditions. In all instances, the Company may not sell shares of its common stock to Lincoln Park under the 2020 Lincoln Park PA if it would result in Lincoln Park beneficially owning more than 9.99% of the Company's common stock at any one point in time.

Since inception and through March 31, 2023, the Company has sold 6.3 million shares of common stock to Lincoln Park pursuant to the 2020 Lincoln Park PA.

During the three months ended March 31, 2023 and 2022, the Company did not sell any shares of common stock pursuant to the 2020 Lincoln Park PA.

Controlled Equity Offering Sales Agreement with Cantor Fitzgerald & Co.

On April 14, 2017, the Company entered into the ATM Offering Agreement with Cantor acting as the sales agent. Under the ATM Offering Agreement, the Company may from time to time sell shares of its common stock in "at-the-market" offerings. The Company pays Cantor a commission of up to 2.5% of the gross proceeds from the sale of any shares pursuant to the ATM Offering Agreement.

During the three months ended March 31, 2023, the Company sold 1.5 million shares of common stock for net proceeds of \$1.5 million pursuant to the ATM Offering Agreement. The Company sold 7.4 million shares of common stock for net proceeds of \$15.6 million pursuant to the ATM Offering Agreement for the three months ended March 31, 2022.

Sales made under the ATM Offering Agreement are made pursuant to the prospectus supplement filed March 13, 2023 which amends and supplements the prospectus supplement filed pursuant to Rule 424(b)(5), which registered for sale up to a total of \$50.0 million of the Company's common stock, which was filed on August 20, 2021 as a takedown off the Company's Registration Statement, which was declared effective by the U.S. Securities and Exchange Commission (the "SEC") on July 8, 2021. The Company is subject to General Instruction I.B.6 of Form S-3, which limits the amount that we may sell under the Registration Statement. After giving effect to these limitations and the current public float of our common stock, and after giving effect to the terms of the ATM Offering Agreement, we currently may offer and sell shares of our common stock having an aggregate offering price of up to \$19,250,000 under the ATM Offering Agreement, which amount is in addition to the shares of common stock that we have sold to date in accordance with the ATM Offering Agreement under the Registration Statement and prospectus supplements thereto. If our public float increases such that we may sell additional amounts under the ATM Offering Agreement and the Registration Statement, we will file another prospectus supplement prior to making additional sales.

As of March 31, 2023, the Company has received total gross proceeds of \$30.7 million under the ATM Offering Agreement.

5. STOCK-BASED COMPENSATION

Stock-based compensation awards consist of stock options, restricted stock units and bonus shares issued under the Company's equity incentive plans, which include the 2013 Omnibus Incentive Plan (the "2013 Plan"), and the Employment Inducement Incentive Award Plan (the "Inducement Plan").

Under the 2013 Plan, the Company may grant awards of stock options, stock appreciation rights, restricted stock awards, restricted stock units ("RSUs"), unrestricted stock, dividend equivalent rights, performance shares and other performance-based awards, other equity-based awards and cash bonus awards to eligible persons. Equity awards under the 2013 Plan are granted from time to time at the discretion of the Compensation Committee of the Board (the "Committee"), with vesting periods and other terms as determined by the Committee with a maximum term of 10 years. The 2013 Plan is administered by the Committee, which can delegate the administration to the Board, other committees or to such other

[Table of Contents](#)

officers and employees of the Company as designated by the Committee and permitted by the 2013 Plan. As of March 31, 2023, 469,392 shares were available for future issuances under the 2013 Plan.

The Inducement Plan provides for the grant of equity-based awards, including restricted stock units, restricted stock, performance shares and performance units. Under the Inducement Plan, the Company may grant equity awards for the sole purpose of recruiting and hiring new employees. As of March 31, 2023, 114,429 shares were available for future issuances under the Inducement Plan.

The Company has elected to account for forfeitures as they occur rather than estimating forfeitures. Expense associated with an award that is forfeited prior to vesting will be reversed accordingly. For the three months ended March 31, 2023, the Company recorded stock-based compensation benefit of \$0.3 million related to departures of employees and recorded stock-based expense of \$0.2 million resulting in a net benefit of \$0.1 million. For the same period in 2022, the Company recorded a stock-based compensation expense of \$0.1 million. Stock compensation benefit and expense are recorded in general and administrative expenses.

Stock Options

Stock options are valued using the Black-Scholes option pricing model on the date of grant. The Company accounts for forfeitures upon occurrence.

The following table summarize stock options outstanding and changes for the three months ended March 31, 2023 and 2022:

	March 31, 2023		March 31, 2022	
	Number of Stock Options	Weighted Average Exercise Price	Number of Stock Options	Weighted Average Exercise Price
Stock options outstanding at beginning of period	356,296	\$ 5.06	277,576	\$ 6.18
Granted	—	—	—	—
Canceled or forfeited	(43,868)	15.69	—	—
Stock options outstanding at end of period	312,428	3.56	277,576	6.18
Stock options exercisable at end of period	233,708	\$ 4.39	183,054	\$ 7.35

All options outstanding for the three months ended March 31, 2023, were issued under the 2013 Plan. The weighted average remaining term for stock options outstanding as of March 31, 2023, is approximately 7.9 years.

As of March 31, 2023, the Company had less than \$0.1 million of unrecognized compensation costs related to non-vested stock options that will be recognized over a period of approximately three months.

Restricted Stock Units

Time-based and performance-based RSUs are valued using the closing share price of the Company’s common stock on the date of grant. The final number of shares issued under performance-based RSUs is generally based on the Company’s prior year performance as determined by the Committee at each vesting date, and the valuation of such awards assumes full satisfaction of all performance criteria. The Company accounts for forfeitures upon occurrence.

The following table summarizes RSU activity for the three months ended March 31, 2023 and 2022:

	March 31, 2023		March 31, 2022	
	Number of RSUs	Weighted- Average Grant Date Fair Value	Number of RSUs	Weighted- Average Grant Date Fair Value
Unvested RSUs at beginning of period	1,207,872	\$ 1.40	385,004	\$ 3.18
Granted	189,072	0.95	91,241	1.97
Forfeited/Expired	(399,867)	1.69	(122,692)	3.09
Vested	(198,327)	1.44	(105,793)	2.97
Unvested RSUs at end of period	798,750	\$ 1.14	247,760	\$ 2.87

As of March 31, 2023, the Company had \$0.5 million of unrecognized compensation costs related to non-vested restricted stock units that will be recognized over a period of approximately 2 years.

6. OTHER INCOME, NET

(thousands of dollars)	For the Three Months Ended March 31,	
	2023	2022
Other (expense) income:		
Foreign exchange loss	\$ (17)	\$ —
Interest income	633	7
Total other income, net	\$ 616	\$ 7

For the three months ended March 31, 2023 the Company recognized less than \$0.1 million of foreign currency exchange loss related to our Euro denominated bank account. As of March 31, 2023, the Company’s cash balance included approximately 0.1 million Euros. The foreign exchange loss was calculated using the exchange rate as of the balance sheet date. A change in the Euro to USD exchange rate of \$0.01 results in a foreign exchange adjustment of less than \$0.1 million.

For the three months ended March 31, 2023 the Company recognized interest income of \$0.6 million, in our investment account.

7. EARNINGS PER SHARE

Basic and diluted loss per common share have been calculated based on the weighted-average shares outstanding during the period. Additionally, 1,111,178 potentially dilutive shares, comprised of unvested RSUs and outstanding stock options at the end of the period, were excluded from the calculation of earnings per share because the effect on the basic income per share would be anti-dilutive, as the Company had a net loss for the three months ended March 31, 2023.

8. COMMITMENTS AND CONTINGENCIES

Future operations on the Company's properties are subject to federal and state regulations for the protection of the environment, including air and water quality. The Company evaluates the status of current environmental laws and their potential impact on current operating costs and accrual for future costs. The Company believes its operations are materially compliant with current, applicable environmental regulations.

At any given time, the Company may enter into negotiations to settle outstanding legal proceedings and any resulting accruals will be estimated based on the relevant facts and circumstances applicable at that time. We do not expect that such settlements will, individually or in the aggregate, have a material effect on our financial position, results of operations or cash flows.

On March 3, 2023, the arbitral tribunal issued its final award in the proceeding. The tribunal agreed with Westwater that Westwater's investment in Turkey was protected by the Treaty between the United States of America and the Republic of Turkey concerning the Reciprocal Encouragement and Protection of Investments (the "Treaty"), and that Turkey's cancellation of the Company's licenses for the Temrezli and Sefaati uranium projects owned by Westwater's Turkish subsidiary, Adur Madencilik Limited Sirketi ("Adur") amounted to an expropriation of Westwater's investment in violation of Turkey's obligations under the Treaty. The tribunal disagreed with Westwater's projections of what its investment was worth and how much the investment would have returned if Turkey had not cancelled the licenses. The tribunal's award requires Turkey to pay Westwater a total of approximately \$1.3 million in damages, to reimburse Westwater for its fees, expenses and costs of the arbitration amounting to approximately \$3.7 million, and to pay interest in an amount yet to be determined.

9. LEASES

The Company's lease portfolio consists of an operating lease for the corporate office and other small operating and finance leases for office equipment in the Alabama office. The corporate office lease has a remaining lease term of 0.3 years and includes an option to extend the lease for 3 years. Under our corporate office lease, we are required to reimburse the lessor each month for common use expenses such as maintenance and security services. Because these amounts are variable from year to year and not specifically set in the lease terms, they are not included in the measurement of the right-of-use asset and related lease liability, but rather expensed in the period incurred. The remaining lease terms for the office equipment leases ranges from 3.1 to 4.3 years.

The Company is party to several leases that have terms that are less than a year in length. These include leases for land used in exploration activities, office equipment, machinery, office space, storage and other. The Company has elected the short-term lease exemption allowed under the new leasing standards, whereby leases with initial terms of one year or less are not capitalized and instead expensed on a straight-line basis over the lease term. In addition, the Company holds several leases related to mineral exploration and production to which it has not applied the new leasing standard. Leases to explore or use minerals and similar nonregenerative resources are specifically excluded by ASC 842, "Leases."

The right-of-use assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities were recognized at the commencement date of the lease based on the present value of lease payments over the lease term using discount rates that range from 3.00% to 9.50%. These rates are either implicit within the lease contract or reflected at the Company's estimated incremental borrowing rate at the lease commencement dates.

[Table of Contents](#)

The components of lease cost are as follows:

(thousands of dollars)	For the Three Months Ended	
	March 31,	
	2023	2022
Operating lease cost	\$ 41	\$ 38
Finance lease cost		
Amortization of right-of-use assets	4	—
Interest on lease liabilities	1	—
Total finance lease cost	5	—
Variable lease costs	4	—
Lease cost	\$ 50	\$ 38

Supplemental cash flow information related to the Company's leases is as follows:

(thousands of dollars)	For the Three Months Ended	
	March 31,	
	2023	2022
Cash paid for amounts included in lease liabilities:		
Operating cash flows from operating leases	\$ 41	\$ 39
Operating cash flows from finance leases	\$ 1	\$ —
Financing cash flows from finance leases	\$ 4	\$ —

Weighted-average remaining lease term and discount rate for the Company's operating lease are as follows:

	Operating Leases	Finance Lease
Weighted average remaining lease term (in years)	0.9	4.3
Weighted average discount rate	8.6 %	3.0 %

Maturities of lease liabilities for the Company's operating leases are as follows:

Lease payments by year (in thousands)	Operating leases	Finance leases
2023 (remainder of year)	\$ 56	\$ 5
2024	4	6
2025	4	6
2026	1	6
2027	—	3
Total lease payments	65	26
Less imputed interest	—	(1)
Total	\$ 65	\$ 25

As of March 31, 2023, the Company has \$0.1 million in right-of-use assets and \$0.1 million in related lease liabilities (\$0.1 million of which is current). The most significant operating lease is for the Company's corporate office in Centennial, Colorado, with \$0.1 million remaining in undiscounted cash payments through the end of the lease term in 2023. The total undiscounted cash payments remaining on operating leases through the end of their respective terms is \$0.1 million.

As of March 31, 2023, the Company has entered into certain leases that have not yet commenced. Each of the leases relates to equipment to be used at the Kellyton Graphite Plant and will commence in mid-2023 with lease terms of 5 years. The net present value of such leases is \$1.1 million.

10. INVENTORY

Inventory consisted of raw material of natural flake graphite concentrate provided by a third-party vendor totaling \$2.8 million as of March 31, 2023. The full amount of inventory is within “*Other long-term assets*” on the Condensed Consolidated Balance Sheets. The Company values the natural flake graphite concentrate at the lower of cost or net realizable value. Net realizable value represents the estimated future sales price of the product based on current and long-term graphite prices, less the estimated costs to complete production and bring the product to sale. Write-downs of the natural flake graphite concentration to net realizable value are reported as a component of costs applicable to sales. The current portion of inventory is determined based on the expected amounts to be processed within the next 12 months and utilize the short-term metal price assumption in estimating net realizable value. Inventory not expected to be processed within the next 12 months is classified as non-current within other long-term assets and we utilize the long-term metal price assumption in estimating net realizable value. Costs are removed from raw materials using an average cost basis.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management’s discussion and analysis of the consolidated financial results and condition of Westwater for the three months ended March 31, 2023, has been prepared based on information available to us as of May 10, 2023. This discussion should be read in conjunction with the unaudited Interim Financial Statements and Notes thereto included herewith and the audited Consolidated Financial Statements of Westwater for the period ended December 31, 2022 and the related notes thereto included in our Annual Report, which were prepared in accordance with U.S. GAAP. This management’s discussion and analysis contains forward-looking statements that are subject to risks, uncertainties and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including, but not limited to, those set forth elsewhere in this report. See “Cautionary Note Regarding Forward-Looking Statements” herein.

INTRODUCTION

Westwater Resources, Inc., originally incorporated in 1977, is an energy technology company focused on developing battery-grade natural graphite materials since its acquisition of Alabama Graphite in April 2018. Alabama Graphite holds mineral rights to explore and potentially mine the Coosa Graphite Deposit. During the first three months of 2023, AGP continued construction activities related to Phase I of the Kellyton Graphite Plant. The Coosa Graphite Deposit is located near Rockford, Alabama at 32 ° 54’ 30” North and 86 ° 24’ 00” West.

RECENT DEVELOPMENTS

Joint Development Agreement with SK On

During the first quarter of 2023, the Company entered into a joint development agreement (“JDA”) with SK On (“SK On”), a leading electric vehicle battery manufacturer, supplying electric vehicle batteries to Ford, Hyundai, Volkswagen and others.

Under the JDA, the two companies will work together to develop environmentally responsible, high performance anode material customized for SK On batteries. Upon the successful completion of the development effort, the parties expect to negotiate another agreement that may allow for the sale of potentially all Coated Spherical Purified Graphite (“CSPG”) anode material from the Kellyton Graphite Processing Plant.

SK On currently operates two EV battery plants in Commerce, Georgia. The South Korean battery maker is also building three EV battery plants in the U.S. with Ford Motor Co. BlueOval SK (the joint venture between SK On and Ford Motor Co.), and plans to operate two battery plants in Glendale, Kentucky, and one factory in Stanton, Tennessee.

SK On recently announced that it has agreed with Hyundai Motor Group to establish an EV battery plant in Bartow County, Georgia, through a joint venture.

Kellyton Graphite Plant – Construction Update

During the first quarter of 2023, the Company continued construction activities related to Phase I of its Kellyton Graphite Plant, including the completion of earthwork and site grading, receipt of additional long-lead equipment components, and further work on underground utilities, and the construction and assembly of plant buildings. As of the date of the filing of this report, all five processing buildings have been completed and are ready for equipment installation to begin.

In response to increasing customer demand and market conditions, the Company has completed an optimization study of the original definitive feasibility study for Phase I of the Kellyton Graphite Plant to increase the expected throughput production for Phase I of the Kellyton Graphite Plant. As a result of this optimization study, the Company now expects to more than double the throughput production capacity for Phase I of the Kellyton Graphite Plant of 16,000 metric tons (or mt) per year, and expected CSPG production of 7,500 mt per year. The Company estimates the total costs for Phase I construction to be approximately \$271 million. Since inception of the project, and inclusive of liabilities at

March 31, 2023, the Company has incurred capital costs of approximately \$102.4 million of the cost to construct Phase I of the Kellyton Graphite Plant.

Graphite and Vanadium as Critical Materials

Presently, the United States is almost 100% dependent on imports for battery-grade graphite, which is currently the primary anode material in the lithium-ion batteries that power electric vehicles, smartphones, and laptops, and store power generated from intermittent renewable energy sources. Westwater intends to process natural flake graphite into battery-grade graphite for all types of batteries including lithium-ion batteries.

On March 31, 2022, President Biden invoked the Defense Production Act to encourage the domestic production of critical materials, including graphite, for advanced batteries for electric vehicles and clean energy storage.

On August 16, 2022, President Biden signed into law the Inflation Reduction Act (“IRA”). This legislation includes an investment of \$369 billion in climate programs. The IRA provides a 10% tax credit for the costs of producing certain critical minerals, including graphite and vanadium. This credit is eligible for direct pay and is also transferable to unrelated taxpayers. In addition, a key provision of the IRA that could indirectly benefit the Company is the Clean Vehicle credit. The IRA eliminates the previous limitation on the number of electric vehicles a manufacturer can sell before the Clean Vehicle credit is phased out or eliminated. Further, the IRA sets a minimum domestic content threshold for the percentage of the value of applicable critical minerals contained in the battery of the electric vehicles. As Westwater intends to produce battery grade graphite for lithium-ion batteries to be used in electric vehicles in the United States, management believes the domestic content requirement could provide indirect future benefit to the Company.

On April 12, 2023, the U.S. Environmental Protection Agency (the “EPA”) announced new proposed federal vehicle emissions standards that will accelerate the ongoing transition to a clean vehicle’s future. The proposed standards align with commitments made by automakers and U.S. states as they plan to accelerate clean vehicle technologies in the light- and medium-duty fleets in the next 10 to 15 years. Under the light-duty vehicle standards, the EPA will require an increasingly stringent greenhouse gas standard that by model year 2032 would result in an industry-wide average target of 82 grams of carbon dioxide created per mile traveled. This represents a 56 percent decrease from the model year 2026 standard set in 2021. For medium-duty vehicles the EPA is proposing to increase stringency to a target of 275 grams of carbon dioxide per mile by model year 2032, which would represent a 44 percent reduction compared to model year 2026 standard. Car and truck companies are moving to include electric vehicles as an integral and growing part of current and future product lines, leading to an increasing diversity of clean vehicles for consumers.

The State of Alabama and local municipalities have entered into incentive agreements with the Company for the siting of the Company’s proposed graphite processing plant in Coosa County, Alabama. The incentive agreements provide certain tax credits and incentives under the Alabama Jobs Act in connection with the construction of the Kellyton Graphite Plant.

Westwater has developed graphite-purification technology and advanced product-development processes designed to meet the demands of potential customers for battery-grade graphite materials. Westwater is developing methodologies and constructing facilities intended to produce high purity, battery-grade graphite products at its Kellyton Graphite Plant. These products are designed to serve all major battery sectors. In addition, we believe the processes we intend to use are environmentally sustainable and permissible in the United States, where a robust regulatory environment complements our core values to reliably deliver safe, well-made products to our customers.

Westwater has and will continue to support the efforts by the relevant United States governmental agencies, the State of Alabama and local municipalities to ensure that they remain aware of the importance of natural battery-grade graphite, its importance to the nation’s security, and how the Kellyton Graphite Plant and the Coosa Graphite Deposit fit into the critical minerals-equation.

Equity Financings

Capital Raises during three months ended March 31, 2023

During the three months ended March 31, 2023 the Company sold 1.5 million shares of common stock for net proceeds of \$1.5 million pursuant to the ATM Offering Agreement, resulting in a cash balance of approximately \$39.7 million at March 31, 2023.

See *Note 4 to the Interim Financial Statements* for additional information.

RESULTS OF OPERATIONS

Summary

Our net loss for the three months ended March 31, 2023, was \$2.4 million, or \$0.05 per share, as compared with a net loss of \$2.8 million, or \$0.08 per share for the same period in 2022. The \$0.4 million decrease in our net loss was due primarily to higher interest income earned on our cash balance of \$0.6 million and lower exploration costs as well as lower legal costs related to the Company's arbitration against the Republic of Turkey; partially offset by higher product development and general and administrative expenses.

Product Development Expenses

Product development expenses for the three months ended March 31, 2023, were \$0.5 million, an increase of \$0.3 million compared to the same period in 2022. Product development costs for the three months ended March 31, 2023, relate primarily to additional sample production of battery-grade natural graphite products for evaluation by potential customers. As the Company works with potential customers through the qualification of its battery-grade natural graphite products, additional samples are required to be prepared, and in some cases, in larger quantities for evaluation and testing by potential customers.

Exploration Expenses

Exploration expenses for the three months ended March 31, 2023 were \$0.1 million, a decrease of \$0.1 million compared to the same period in 2022. The decrease is due to the Company completing its initial drilling program related to the Coosa Graphite Deposit in April 2022.

General and Administrative Expenses

General and administrative expenses for three months ended March 31, 2023, increased by \$0.2 million, compared to the same period in 2022. The increase was due primarily to higher personnel costs that include approximately \$0.3 million for severance charges related to the departure of the Company's former Chief Executive Officer in January 2023. These costs were offset partially by a benefit in stock-based compensation expense related to award forfeitures occurring during the first quarter of 2023. See *Note 5 to the Interim Financial Statements* for additional information on stock-based compensation.

Arbitration Costs

During the three months ended March 31, 2023, there were no arbitration costs. The \$0.1 million of arbitration costs in 2022 were legal fees related to the Company's request for Arbitration against the Republic of Turkey.

On March 3, 2023, the arbitral tribunal issued its final award in the proceeding. The tribunal agreed with Westwater that Westwater's investment in Turkey was protected by the Treaty between the United States of America and the Republic of Turkey concerning the Reciprocal Encouragement and Protection of Investments (the "Treaty"), and that Turkey's cancellation of the Company's licenses for the Temrezli and Sefaatli uranium projects owned by Westwater's Turkish subsidiary, Adur Madencilik Limited Sirketi ("Adur") amounted to an expropriation of Westwater's investment in violation of Turkey's obligations under the Treaty. The tribunal disagreed with Westwater's projections of what its

[Table of Contents](#)

investment was worth and how much the investment would have returned if Turkey had not cancelled the licenses. The tribunal's award requires Turkey to pay Westwater a total of approximately \$1.3 million in damages, to reimburse Westwater for its fees, expenses and costs of the arbitration amounting to approximately \$3.7 million, and to pay interest in an amount yet to be determined.

Other Income

Other income for the three months ended March 31, 2023, increased by \$0.6 million compared to the same period in 2022 due to an increase of \$0.6 million of interest income in our investment account resulting from higher interest rates.

FINANCIAL POSITION

Operating Activities

Net cash used in operating activities of \$3.0 million for the three months ended March 31, 2023, represents an increase of \$0.3 million compared to the same period in 2022. The increase in cash used in operating activities was due primarily to purchases of raw material inventory during the three months ended March 31, 2023 of \$2.0 million, compared to no inventory purchases for the same period of 2022. This increase in raw material inventory was offset partially by higher interest income of \$0.6 million earned during the first quarter of 2023, and a decrease in prepaid deposits compared to an increase in prepaids and other assets in the first quarter of 2022.

Investing Activities

Net cash used in investing activities increased by \$21.8 million for the three months ended March 31, 2023, as compared to the same period in 2022. The increase was a result of higher capital expenditures related to the construction of Phase I of the Kellyton Graphite Plant, which began construction related activities in December 2021. The capital expenditures in the first three months of 2023 included progress payments for equipment, further work on underground utilities, and the construction and assembly of plant buildings. During the same period in 2022, there were deposits of long-lead items and earthwork began in March of 2022.

Financing Activities

Net cash provided by financing activities was \$1.4 million for the three months ended March 31, 2023, comprised of sales of common stock through the Company's ATM Offering Agreement. Net cash provided by financing activities for the same period in 2022 was \$15.5 million. The \$14.1 million decrease was primarily due to lower sales activity under the 2020 Lincoln Park PA and the ATM Offering Agreement during the first three months of 2023 compared to the same period in 2022.

LIQUIDITY AND CAPITAL RESOURCES

Since 2009, the Company has relied on equity financings, debt financings and asset sales to fund its operations. During the three months ended March 31, 2023, the Company continued construction activities related to the Kellyton Graphite Plant. The Company's construction related contracts include termination provisions at the Company's election that do not obligate the Company to make payments beyond what is incurred by the third-party service provider through the date of such termination. In its going concern analysis, the Company considered the construction activity and related costs through the date that the Interim Financial Statements were issued, and the Company's planned non-discretionary expenditures through May 31, 2024, which, in the aggregate, exceed the cash on hand as of the date of these Interim Financial Statements, excluding external funding opportunities and the Company's current equity facilities.

On March 31, 2023, the Company's cash balance was approximately \$39.7 million inclusive of approximately 0.1 million Euros. The Company plans to use its remaining Euro cash balance to pay for long lead equipment denominated in Euros. During the three months ended March 31, 2023, the Company sold 1.5 million shares of common stock for net proceeds of \$1.5 million, pursuant to the ATM Offering Agreement. As of March 31, 2023, the Company may offer and sell shares of its common stock having an aggregate offering price of up to \$19,250,000 under the ATM Offering Agreement and has 9.7 million shares of common stock available for future sales pursuant to the 2020 Lincoln Park PA.

[Table of Contents](#)

The Company has historically, and expects to continue to rely on debt and equity financing to fund its operations and business plan until operations commence at the Kellyton Graphite Plant. Along with evaluating the continued use of the ATM Offering Agreement and the 2020 Lincoln Park PA, the Company is considering other forms of project financing to fund the construction of the Kellyton Graphite Plant, including both Phase I and Phase II. The alternative sources of project financing could include, but are not limited to, project debt, convertible debt, or pursuing a partnership or joint venture. If funds are not available to fund the construction of Phase I of the Kellyton Graphite Plant under the Company's financing facilities or through alternative financing sources, the Company may be required to reduce or severely curtail operations, change its planned business development strategies related to the Coosa Graphite Deposit and Phase I of the Kellyton Graphite Plant, alter the construction and commissioning timeline of Phase I of the Kellyton Graphite Plant, or put the construction of Phase I on hold until additional funding is obtained. If the Company is required to abandon construction and development or alter its intended long-term plans related the Kellyton Graphite Plant, the Company could be required to evaluate the recoverability of its long-lived assets.

While the Company has utilized its equity facilities to advance its business plan and has been successful in the past raising funds through equity and debt financings as well as through the sale of non-core assets, no assurance can be given that additional financing will be available in amounts sufficient to meet its needs, or on terms acceptable to the Company. Recent declines in the equity and debt capital markets, rising interest rates, inflation and generally uncertain economic conditions could significantly impact the Company's ability to access the necessary funding to advance its business plan. Further, on March 13, 2023, the Company filed a prospectus supplement to the Registration Statement and as a result, the Company's access to the available capacity under the Registration Statement is now subject to General instructions I.B.6 of Form S-3, which limits the amounts that the Company may sell under the Registration Statement. After giving effect to these limitations and the current public float of our common stock, and after giving effect to the terms of the ATM Offering Agreement, we currently may offer and sell shares of our common stock having an aggregate offering price of up to \$19,250,000 under the ATOM Offering Agreement, which amount is in addition to the shares of common stock that we have sold to date in accordance with the ATM Offering Agreement under the Registration Statement and prospectus supplements thereto. If our public float increases such that we may sell additional amounts under the ATM Offering Agreement and the Registration Statement, we will file another prospectus supplement prior to making additional sales.

OFF-BALANCE SHEET ARRANGEMENTS

We have no off-balance sheet arrangements.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

With the exception of historical matters, the matters discussed in this report are forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from projections or estimates contained herein. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Such forward-looking statements include, without limitation, statements regarding the adequacy of funding, liquidity, access to capital, financing activities, the timing or occurrence of any future drilling or production from the Company's properties, economic conditions, the strategic goals of the business, arbitration matters, costs of Phase I of the Kellyton Graphite Plant and estimated construction and commissioning timeline and completion date, the outcome of the feasibility study and start date for the mining of the Coosa Graphite Deposit, and the Company's anticipated cash burn rate and capital requirements. Words such as "may," "could," "should," "would," "believe," "estimate," "expect," "anticipate," "plan," "forecast," "potential," "intend," "continue," "project," "target" and variations of these words, comparable words and similar expressions generally indicate forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements. Actual results may differ materially from those expressed or implied by these forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements include, among others:

- the spot price and long-term contract price of graphite (both flake graphite feedstock and purified graphite products) and vanadium, and the world-wide supply and demand of graphite and vanadium;
- the effects, extent and timing of the entry of additional competition in the markets in which we operate;

[Table of Contents](#)

- our ability to obtain contracts with customers;
- available sources and transportation of graphite feedstock;
- the ability to control costs and avoid cost and schedule overruns during the development, construction and operation of the Kellyton Graphite Plant;
- the ability to construct and operate the Kellyton Graphite Plant in accordance with the requirements of permits and licenses and the requirements of tax credits and other incentives;
- the effects of inflation, including labor shortages and supply chain disruptions;
- rising interest rates and the associated impact on the availability and cost of financing sources;
- the availability and supply of equipment and materials needed to construct the Kellyton Graphite Plant;
- stock price volatility;
- government regulation of the mining and manufacturing industries in the United States;
- unanticipated geological, processing, regulatory and legal or other problems we may encounter;
- the results of our exploration activities, and the possibility that future exploration results may be materially less promising than initial exploration results;
- any graphite or vanadium discoveries not being in high enough concentration to make it economic to extract the metals;
- our ability to finance growth plans;
- currently pending or new litigation or arbitration; and
- our ability to maintain and timely receive mining and other permits from regulatory agencies.

In addition, other factors are described in our Annual Report, and the other reports we file with the SEC. Most of these factors are beyond our ability to predict or control. Future events and actual results could differ materially from those set forth herein, contemplated by or underlying the forward-looking statements. Forward-looking statements speak only as of the date on which they are made. We disclaim any obligation to update any forward-looking statements made herein, except as required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, we are not required to provide this information in our Quarterly Reports.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its filings with the SEC is recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the

Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management has recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply judgment in evaluating the Company's controls and procedures.

During the fiscal period covered by this report, the Company's management, with the participation of the Chief Executive Officer and Chief Financial Officer of the Company, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of March 31, 2023.

Changes in Internal Controls

We have commenced initiatives to improve our enterprise resource planning ("ERP") system. We believe this new system will enhance our internal control over financial reporting due to increased automation. We will continue to monitor our internal control over financial reporting for effectiveness throughout the transition.

Except for our continuous monitoring of the new ERP system, there were no changes in our internal control over financial reporting during the three months ended March 31, 2023 that materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Information regarding reportable legal proceedings is contained in Part I, Item 3, "Legal Proceedings," in our Annual Report. There have been no material changes to the legal proceedings previously disclosed in the Annual Report with one exception. In Westwater's arbitration proceeding against the Republic of Turkey, subsequent to the issuance of the tribunal's decision on March 3, 2023, Westwater filed a Notice of Rectification on April 14, 2023. The Notice of Rectification seeks to correct an error in the tribunal's calculation of the amount of the award, which if granted would increase the amount of investment costs to be paid by Turkey to Westwater from \$1,283,000 to \$2,780,000. There is no date upon which the tribunal will render its decision on this matter.

ITEM 1A. RISK FACTORS.

An investment in our common stock involves various risks. When considering an investment in us, careful consideration should be given to the risk factors discussed in *Risk Factors in Item 1A* in our Annual Report. There are no material changes to the risk factors described in our Annual Report.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS.

(Principal Financial Officer and Principal Accounting
Officer)

**Certification of Chief Executive Officer
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Frank Bakker, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Westwater Resources, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
